Validating Technological Innovation David Coniam 2016-04-02 This book discusses Hong Kong's use of onscreen marking (OSM) in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive, coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high-stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

Essentials of Epidemiology in Public Health Ann Aschengrau 2013-06-03 Successfully tested in the authors' courses at Boston University and Harvard University, this text combines theory and practice in presenting traditional and new epidemiologic concepts. Broad in scope, the text opens with five chapters covering the basic epidemiologic concepts and data sources. A major emphasis is placed on study design, with separate chapters devoted to each of the three main analytic designs: experimental, cohort, and case-control studies. Full chapters on bias, confounding, and random error, including the role of statistics in epidemiology, ensure that students are well-equipped with the necessary information to interpret the results of epidemiologic studies. An entire chapter is also devoted to the concept of effect measure modification, an often-neglected topic in introductory textbooks. Up-to-date examples from the epidemiologic literature on diseases of public health importance are provided throughout the book. The Third Edition is a thorough update that offers: New examples, the latest references, and public health statistics. Nearly 50 new review questions. Updated discussion of certain epidemiologic methods. New figures depicting epidemiologic concepts."

Faceless Amma Darko 2003 Street life in the slums of Accra is realistically portrayed in this socially-committed, subtle novel about four educated women who are inspired by the plight of a 14-year old girl, Fofo. As the main characters convert their library center into a practical street initiative, the novel invokes the squalor, health risks, and vicious cycles of poverty and violence that drive children to the streets and women to prostitution; and, from which, ultimately, no one in the society is free.

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of Battle Hymn of the Tiger Mother). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

The impact of disasters and crises on agriculture and food security: 2021 Food and Agriculture Organization of the United Nations 2021-03-17 On top of a decade of exacerbated disaster loss, exceptional global heat, retreating ice and rising sea levels, humanity and our food security face a range of new and unprecedented hazards, such as megafires, extreme weather events, desert locust swarms of magnitudes previously unseen, and the COVID-19 pandemic. Agriculture underpins the livelihoods of over 2.5 billion people – most of them in low-income developing countries – and remains a key driver of development. At no other point in history has agriculture been faced with such an array of familiar and unfamiliar risks, interacting in a hyperconnected world and a precipitously changing landscape. And agriculture continues to absorb a disproportionate share of the damage and loss wrought by disasters. Their growing frequency and intensity, along with

the systemic nature of risk, are upending people's lives, devastating livelihoods, and jeopardizing our entire food system. This report makes a powerful case for investing in resilience and disaster risk reduction – especially data gathering and analysis for evidence informed action – to ensure agriculture's crucial role in achieving the future we want.

Women of Owu Femi Osofisan 2006 This is an African retelling of Euripides: an unnervingly topical story of a people and a beloved city destroyed by the brutality of war. The play was first performed in Lagos in 2003 under the distinguished director Chuck Mike, and subsequently toured the UK.

The Travels of a T-Shirt in the Global Economy Pietra Rivoli 2005-04-01 Praise for THE TRAVELS OF A T-SHIRT IN THE GLOBAL ECONOMY "Engrossing . . . (Rivoli) goes wherever the T-shirt goes, and there are surprises around every corner . . . full of memorable characters and vivid scenes." —Time "An engaging and illuminating saga. . . . Rivoli follows her T-shirt along its route, but that is like saying that Melville follows his whale. . . . Her nuanced and fair-minded approach is all the more powerful for eschewing the pretense of ideological absolutism, and her telescopic look through a single industry has all the makings of an economics classic." —The New York Times "Rarely is a business book so well written that one would gladly stay up all night to finish it. Pietra Rivoli's The Travels of a T-Shirt in the Global Economy is just such a page-turner." —CIO magazine "Succeeds admirably . . . T-shirts may not have changed the world, but their story is a useful account of how free trade and protectionism certainly have." —Financial Times "[A] fascinating exploration of the history, economics, and politics of world trade . . . The Travels of a T-Shirt in the Global Economy is a thought-provoking yarn that exhibits the ugly, the bad, and the good of globalization, and points to the unintended positive consequences of the clash between proponents and opponents of free trade." —Star-Telegram (Fort Worth) "Part travelogue, part history, and part economics, The Travels of a T-Shirt in the Global Economy is ALL storytelling, and in the grand style. A must-read." —Peter J. Dougherty, Senior Economics Editor, Princeton University Press author of Who's Afraid of Adam Smith? "A readable and evenhanded treatment of the complexities of free trade . . . As Rivoli repeatedly makes clear, there is absolutely nothing free about free trade except the slogan." —San Francisco Chronicle

Unexpected Joy at Dawn Alex Agyei-Agyiri 2003 Fifteen years ago, Mama said, starting her story, I came to Lagos from Ghana. I came to Nigeria because I was considered an alien in that country. The government of Ghana passed a law asking all aliens without resident permits to regularise their stay in the country'. This story of migration, identities and lives undermined by cynical and xenophobic politics pushed to its logical and terrible conclusion pertains to the Ghanaian orders of 'alien compliance' issued in 1970-1971, which determined to force all non-ethnic Ghanaians, so called illegal immigrants, to return to their - so stipulated - 'home'. The novel thus touches on concerns of deeper relevance to the politics of race and migration of the twenty first century.

Influences of Social Media on Adolescent Mental Health in Ghana Gilbert Arhinful Aidoo 2019-10-16 Seminar paper from the year 2019 in the subject Communications - Public Relations, Advertising, Marketing, Social Media, University of Ghana, Legon, language: English, abstract: In Ghana, information about social media influences on adolescent users' behaviour is dearth. Any empirical assessment of social media influences on adolescent mental health is largely lacking. Furthermore, there is limited or no policy or legal framework regarding access and use of social media platforms in Ghana. More so, most of the few empirical studies on social media usage in Ghana have focused on access, purpose, benefits and risks and impacts on academic performance of tertiary, secondary and basic school students. It is against this backdrop that the current study comes to examine the actual influences of social media on adolescent mental health and overall policy implications in Ghana. The researcher examines the trend in social media use, the main impacts of social media use on adolescents and major influences of social media use on mental health of adolescents in Ghana. The study will contribute immensely to existing knowledge on social media use among Ghanaian youth. The results may also inform national policy on effective and responsible use of social media in order to mitigate associated risks of social media use on Ghanaian adolescents. Social media has become a common avenue for social networking in a virtual public, which allows people to create and consume their own information on any e-medium that sanctions social interfacing. It includes online platforms such as social networking, internet fora, blogs and microblogs, photo or video sharing media, crowdsourcing and virtual games. These media present both opportunities and challenges to users. The use of social media by especially adolescents may enhance communication and socialization, learning opportunities, and access to important health information. But it may also promote dissemination of inaccurate and misleading i

Purple Hibiscus Chimamanda Ngozi Adichie 2012-04-17 "One of the most vital and original novelists of her generation." —Larissa MacFarquhar, The New Yorker From the bestselling author of Americanah and We Should All Be Feminists Fifteen-year-old Kambili and her older brother Jaja lead a privileged life in Enugu, Nigeria. They live in a beautiful house, with a caring family, and attend an exclusive missionary school. They're completely shielded from the troubles of the world. Yet, as Kambili reveals in her tender-voiced account, things are less perfect than they appear. Although her Papa is generous and well respected, he is fanatically religious and tyrannical at home—a home that is silent and suffocating. As the country begins to fall apart under a military coup, Kambili and Jaja are sent to their aunt, a university professor outside the city, where they discover a life beyond the confines of their father's authority. Books cram the shelves, curry and nutmeg permeate the air, and their cousins' laughter rings throughout the house. When they return home, tensions within the family escalate, and Kambili must find the strength to keep her loved ones together. Purple Hibiscus is an exquisite novel about the emotional turmoil of adolescence, the powerful bonds of family, and the bright promise of freedom.

Public Examinations Examined Thomas Kellaghan 2019-11-19 High-stakes public examinations exert a dominant influence in most education systems. They affect both teacher and student behavior, especially at the middle and upper levels of secondary education. The content of past examinations tends to dictate what is taught and how it is taught and, more important, what is learned and how it is learned. By changing aspects of these examinations, especially their content and format, education systems can have a strong positive impact on teacher behavior and student learning, help raise student achievement levels, and better prepare students for tertiary-level education and for employment. Examination agencies, many of which have followed the same procedures over decades, can learn from the successes and failures of other systems. This book addresses current issues related to the development, administration, scoring, and usage of these high-stakes public examinations, identifying key issues and problems related to examinations in many emerging market economies as well as in advanced economies. The book's primary audience consists of public examination officials on national, regional, and state examination boards, but the book should also be of interest to senior education policy makers concerned

with certification and learning achievement standards, to academics and researchers interested in educational assessment, to governmental and education agencies responsible for student selection, and to professionals at development organizations. “This extremely well-written and comprehensive book offers a timely review of the diversity of public examination practices worldwide; of the tensions between examinations and learning; and of the technical expertise involved in the creation of valid, reliable, and fair assessments. It reminds us that as “the diploma disease” takes hold with an ever-greater intensity at every stage of education worldwide, and the commercial business of testing flourishes, those concerned with educational quality and meaningful learning must be on guard to prevent the assessment tail wagging the educational dog.” Angela W. Little, Professor Emerita, Institute of Education, University College London “This book is very well structured and written and draws on the authors’ remarkable global knowledge across countries and histories. It will be a great asset both to administrators responsible for examinations and to academics and other professionals who seek to understand the nature and impact of examinations of different types and in different settings.” Mark Bray, UNESCO Chair Professor of Comparative Education, University of Hong Kong; and former Director, UNESCO International Institute for Educational Planning “I am sure that Public Examinations Examined, which thoroughly analyzes the practice of public examinations in different countries and makes profound and well-grounded conclusions, will arouse very great interest and will serve to further improve public examinations.” Victor Bolotov, Distinguished Professor, Higher School of Economics, National Research University, Moscow; member, Russian Academy of Education; and former Deputy Minister of Education, Russian Federation

**Americanah Chimamanda Ngozi Adichie 2013-05-14 NATIONAL BESTSELLER** • From the award-winning author of *We Should All Be Feminists* and *Half of a Yellow Sun*—the story of two Nigerians making their way in the U.S. and the UK, raising universal questions of race, belonging, the overseas experience for the African diaspora, and the search for identity and a home. Ifemelu and Obinze are young and in love when they depart military-ruled Nigeria for the West. Beautiful, self-assured Ifemelu heads for America, where despite her academic success, she is forced to grapple with what it means to be black for the first time. Quiet, thoughtful Obinze had hoped to join her, but with post-9/11 America closed to him, he instead plunges into a dangerous, undocumented life in London. Fifteen years later, they reunite in a newly democratic Nigeria, and reignite their passion—for each other and for their homeland.

**Homesick in Paradise Theophilus Enemali 2015-11-04** *Homesick in Paradise* is a wonderfully written novel that you can't read once and drop but read it time and time again. The lead story has a personal emotional touch that draws you so close to empathizing with an eleven year old character, Enemona, who couldn't bear the heat of his mother's death, decides to break barrier in order to have a spiritual verbal communion with the dead mother. Would the dead mother respond in a mysterious way? The author similarly weaved the childhood memories of a child in a boarding secondary school with its fun and fabulous fury. It espouses the split personality of a nearly indoctrinated child in Christendom, with the conflict of participating in the rich culture of his African traditional festivals. It is an impressive narration laced with tragic stories but also harmonized with great hilarious stories that are didactic and perhaps ribs cracking.

**Dictionary of the British English Spelling System Greg Brooks 2015-03-30** This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single letters in non-final syllables.

**Factors contributing to academic performance of students in a Junior High School Anthony Abaidoo 2018-11-22** Bachelor Thesis from the year 2018 in the subject Pedagogy - School System, Educational and School Politics, grade: 5 (GHA-System), University of Education (Distance Learning), course: Post Graduate Diploma in Education, language: English, abstract: Students' academic performance is a key feature in education. This study was therefore conducted primarily to assess the factors contributing to improvement in academic performance of Junior High Students (JHS) in a Basic School which is in the Gomo-East District in the Central Region of Ghana. The mixed and descriptive research design was used and a sample size of 87 respondents (79 students and 8 teachers) were selected through random sampling technique. The findings revealed that the average academic performance (47.0%) of the JHS students in the Basic School is weak and their performance in Mathematics (average score of 31.48%) and English Language (average score of 39.99%) is a fail. It was noticed that student factors that contribute to an improvement in academic performance include; regular studying, self-motivation, punctuality and regular class attendance, hard-work and interest in a subject. The teacher factors were completion of syllabus, use of TLM's, frequent feedback to students and given students special attention. Per the findings, parent factors which was very key was parent showing concern in their children's academics and providing them their academic needs. School factors that were significant included availability of text books and TLM's. The study also found that parent level of education and gender has a positive relationship with academic performance but it's insignificant. However, age has a positive significant (5% significance level) relationship with academic performance. Based on findings, the study recommends that there should be strict monitoring on teachers to vary their teaching methods to suit their needs of the students and also to provide the students with constant feedback on their academic performance. Again, the students should be motivated and orientated to take ownership of their studies by having regular studies and

attending school during school days.

WAEC in Review Benjamin Freeman Jr. 2014-11-07 WAEC in Review is a practical intervention strategy in transforming the weakening educational system of Liberia where academic excellence is unceasingly diminishing. LIPACE Pilot Study Guide is not only a landmark achievement in the educational history of Liberia but a remarkable stride towards the proper preparation of Liberian students for future diets of the WAEC exam. As a member of the National Committee of the West African Examinations Council and a Stakeholder in the Liberian Education System, I wish to recommend the use of this study guide to adequately prepare each and every Liberian student for future examinations thereby setting the stage for an easy transition to the emerging West African Senior Secondary Examinations (WASSCE). I am explicitly confident that you will definitely find your journey through this guide very rewarding as you prepare to sit the next WAEC Exam.—David S. Massaquoi, Sr., director of Education, The Salvation Army—Liberia Command Education Secretariat Our students sit the exam in constant fear of proctors and supervisors. They know nothing about the exam and its structure and this fear lead to them failing massively. We need to build the confidence level of our students and help them to study hard and understand the roles of proctors and supervisors to stop the intimidation during the exam. Thanks to LIPACE and the “Turning the Tide” project, we have helped our students achieved an amazing achievement for the first time in the history of Gbarpolu County where all senior students successfully passed the exam.—Lartey Bemah, principal of Bopolu Public School (2012-2013), Gbarpolu County, Liberia

Prospects and Challenges of Book Publishing and Marketing in Nigeria Anthony Uche 2021-09-27 Master's Thesis from the year 2014 in the subject Book Science, Nnamdi Azikiwe University Awka, course: Mass Communication, language: English, abstract: The study has five objectives, namely: to find out the contributions that indigenous publishers are making towards the development of the Nigerian economy, to identify the various ways Literamed Publications market their books, to explore the challenges facing the book industry in general and Literamed in particular as well as the prospects available for Literamed Publications. Five research questions were also generated for which the study sought to answer. In carrying out the study several relevant literatures were reviewed including communication texts, past studies, online and offline articles, journals as well as papers presented at different fora that have bearing on the subject. The theoretical framework for the study is the libertarian theory of the press. The study being a survey utilized the questionnaire as instrument for data collection. A survey was conducted among the staff of Literamed publications limited by administering the questionnaire to a sample of 190 staff drawn through a simple random sampling. The findings indicate that publishers are contributing to the growth of the Nigerian economy (96.2%). The major challenges confronting the publishing industry include book piracy (39.3%) and inadequate infrastructure such as electricity (25.1%) while the prospects include the ever expanding population of schools enrolment and the policy of compulsory education coupled with government bulk purchases. The findings also indicate that the company uses a multi-sectoral approach in marketing their books such as institutional sales, supply to distributors, bookshops and more importantly to schools and end users. The study recommends, among other things, a synergistic approach in fighting copyright violations involving all stakeholders: authors, printers, publishers, booksellers, Nigerian Copyright Commission and other law enforcement agencies.

Oral Literature in Africa Ruth Finnegan 2012-09 Ruth Finnegan's Oral Literature in Africa was first published in 1970, and since then has been widely praised as one of the most important books in its field. Based on years of fieldwork, the study traces the history of storytelling across the continent of Africa. This revised edition makes Finnegan's ground-breaking research available to the next generation of scholars. It includes a new introduction, additional images and an updated bibliography, as well as its original chapters on poetry, prose, "drum language" and drama, and an overview of the social, linguistic and historical background of oral literature in Africa. This book is the first volume in the World Oral Literature Series, an ongoing collaboration between OBP and World Oral Literature Project. A free online archive of recordings and photographs that Finnegan made during her fieldwork in the late 1960s is hosted by the World Oral Literature Project (<http://www.oralliterature.org/collections/rfinnegan001.html>) and can also be accessed from publisher's website.

The Beautiful Ones are Not Yet Born Ayi Kwei Armah 1988 This novel is a treatment of the theme of corruption wrought by poverty. It is the story of an upright man resisting the temptations of easy bribes and easy satisfactions and winning for his honesty nothing but scorn even from those he loves.

Preparing Teachers National Research Council 2010-07-25 Teachers make a difference. The success of any plan for improving educational outcomes depends on the teachers who carry it out and thus on the abilities of those attracted to the field and their preparation. Yet there are many questions about how teachers are being prepared and how they ought to be prepared. Yet, teacher preparation is often treated as an afterthought in discussions of improving the public education system. Preparing Teachers addresses the issue of teacher preparation with specific attention to reading, mathematics, and science. The book evaluates the characteristics of the candidates who enter teacher preparation programs, the sorts of instruction and experiences teacher candidates receive in preparation programs, and the extent that the required instruction and experiences are consistent with converging scientific evidence. Preparing Teachers also identifies a need for a data collection model to provide valid and reliable information about the content knowledge, pedagogical competence, and effectiveness of graduates from the various kinds of teacher preparation programs. Federal and state policy makers need reliable, outcomes-based information to make sound decisions, and teacher educators need to know how best to contribute to the development of effective teachers. Clearer understanding of the content and character of effective teacher preparation is critical to improving it and to ensuring that the same critiques and questions are not being repeated 10 years from now.

The Radio and Other Stories Gil Ndi-Shang 2021-04-03 On moving into a new apartment abroad in his Bavarian hometown, the narrator realises that some of his possessions and elements of his new neighbourhood open a window into a flurry of memories, serving as allegorical threads to his childhood, self-consciousness and discovery of the world. What begins as a personal narrative quickly cedes to a social archaeology, inviting the reader/listener on a homegoing journey in the backdrop of Cameroon's tottering democratic trajectory. Modulated with poetry and music, The Radio tunes in to diaspora, home, nation, education, existence, religion as well as Mbum popular culture, showcasing creative re-appropriation and re-mixing of global trends and

The Last Good Man Patience Swift 2008 A man has lived on his own beside a wild, unforgiving coastline for many years. His companions are the birds, the land and the sea. From a choice made long ago, he keeps himself separate from the world of people and he gains a fierce pleasure from his environment. His solitude is broken by his discovery, one early morning on the flat sands of low tide, of a child washed up on the beach, but still alive. This is a novel of redemption, the story of a man experiencing the world as though for the first time.

Values and Valuing in Mathematics Education Philip Clarkson 2019-04-24 This engaging open access book discusses how a values and valuing perspective can facilitate a more effective mathematics pedagogical experience, and allows readers to explore multiple applications of the values perspective across different education systems. It also clearly shows that teaching mathematics involves not only reasoning and feelings, but also students' interactions with their cultural setting and each other. The book brings together the work of world leaders and new thinkers in mathematics educational research to improve the learning and teaching of mathematics. Addressing themes such as discovering hidden cultural values, a multicultural society and methodological issues in the investigation of values in mathematics, it stimulates readers to consider these topics in cross-cultural ways, and offers suggestions for research and classroom practice. It is a valuable resource for scholars of mathematics education, from early childhood through to higher education and an inspiring read for all mathematics teachers.
