Miz Scarlet and the Perplexed Passenger Sara M. Barton 2019-06-11 Book five in the popular cozy mystery series laced with humor and romance... "Very entertaining read. It had me chuckling so much I had to pause the reading. She has a very witty humor." When innkeeper Scarlet Wilson is asked to accompany her wheelchair-bound mother on a five-night cruise to Bermuda, she expects to have a

trip to remember. Boy, will she remember this one! Accompanied by Laurel Googins Wilson's new beau and Scarlet's old high school flame, the women set sail for paradise. While Scarlet loses herself in a good book on the balcony of their stateroom, poor Laurel witnesses the deadly plunge of a fellow passenger into the Atlantic Ocean. It's the start of a nightmare that may never end. Who would want to kill George Delaney, the respectable funeral director from Caulkins Cove, Maine, on a cruise to Bermuda? Scarlet doesn't believe the culprit is the grieving widow. While Kenny, an experienced investigator, joins forces with old school chum Marley Hornsby, now the security chief for the cruise line, and the cruise ship's security team to find the killer hiding in their midst, the amateur sleuth known as Miz Scarlet can't resist diving into this mystery. But this isn't a killer who wants to be found. He's dangerous...he's desperate...and he's plotting to kill again! Suddenly Miz Scarlet finds herself facing the wrath of a devious, dangerous stranger. Can she stay alive long enough to figure out what the killer's end game is?

Sharing Knowledge Making a Difference World Association for Sustainable Development. International Conference 2011 Information communications technologies (ICTs) are generally viewed as the new vehicle to redress developmental problems. The book assesses the value of such claims by analyzing the structure and workings of the global political economy (GPE) and its impact on, and prospects for developing countries in the current techno-economic context. The book uses a case study of the Caribbean to illustrate the challenges and opportunities faced by small-island developing states (SIDS) in the new techno-economic paradigm. The question must be asked, can small island developing states such as those of the Caribbean leverage modern ICTs for growth and development against the backdrop of a yawning global digital divide? Hence, the book addresses the central problem of the digital divide and whether emerging ICTs offer any real economic opportunities for the Caribbean region.

Commonwealth Caribbean Business Law Rajendra Ramlogan 2012-05-23 Caribbean Business Law breaks away from the traditional English approach of treating business law primarily as the law of contract and agency. It provides a broad overview of the foundation of various legal systems and goes on to examine the various areas of legal liability that may impact on business activities. These areas include tort law, criminal law, internet law and payment in business transactions. Specifically, the book targets the development of business law in several Commonwealth jurisdictions, including Canada and Australia, but with special focus on legal developments in Commonwealth Caribbean countries. The approach of the book is to present excerpts from judgments, so as to enable students to understand legal principles as espoused by the judiciary without the filtering bias of authors. This new title is essential reading for students taking LLB and Business Degree courses in the Caribbean and other Commonwealth jurisdictions.

The Politics of the Internet in Third World Development Bert Hoffmann 2004-10-01 This book examines the political and developmental implications of the new information and communication technologies (NICT) in the Third World. Whereas the concept of the "digital divide" tends to focus on technological and quantitative indicators, this work stresses the crucial role played by the political regime type, the pursued development model and the specific configuration of actors and decision-making dynamics. Two starkly contrasting Third World countries, state-socialist Cuba and the Latin America's "show-case democracy" Costa Rica, were chosen for two in-depth empirical country studies.

Knowledge Management: Awad Knowledge Management is a subset of content taught in the Decision Support Systems course.

Knowledge Management is about knowledge and how to capture it, transfer it, share it, and how to manage it. The authors take students through a process-oriented examination of the topic, striking a balance between the behavioral and technical aspects of knowledge management and use it.

Handbook of Meta-analysis in Ecology and Evolution Julia Koricheva 2013-04-21 Meta-analysis is a powerful statistical methodology for synthesizing research evidence across independent studies. This is the first comprehensive handbook of meta-analysis written specifically for ecologists and evolutionary biologists, and it provides an invaluable introduction for beginners as well as an up-to-date guide for experienced meta-analysts. The chapters, written by renowned experts, walk readers through every step of meta-analysis, from problem formulation to the presentation of the results. The handbook identifies both the advantages of using meta-analysis for research synthesis and the potential pitfalls and limitations of meta-analysis (including when it should not be used). Different approaches to carrying out a meta-analysis are described, and include moment and least-square, maximum likelihood, and Bayesian approaches, all illustrated using worked examples based on real biological datasets. This one-of-a-kind resource is uniquely tailored to the biological

sciences, and will provide an invaluable text for practitioners from graduate students and senior scientists to policymakers in conservation and environmental management. Walks you through every step of carrying out a meta-analysis in ecology and evolutionary biology, from problem formulation to result presentation Brings together experts from a broad range of fields Shows how to avoid, minimize, or resolve pitfalls such as missing data, publication bias, varying data quality, nonindependence of observations, and phylogenetic dependencies among species Helps you choose the right software Draws on numerous examples based on real biological datasets

Variation in the Caribbean Lars Hinrichs 2011-01-26 The study of linguistic variation in the Caribbean has been central to the emergence of Pidgin and Creole Linguistics as an academic field. It has yielded influential theory, such as the (post-)creole continuum or the 'Acts of Identity' models, that has shaped sociolinguistics far beyond creole settings. This volume collects current work in the field and focuses on methodological and theoretical innovations that continue, expand, and update the dialog between Caribbean variation studies and general sociolinguistics.

Sounds of Vacation Jocelyne Guilbault 2019-08-30 The contributors to Sounds of Vacation examine the commodification of music and sound at popular vacation destinations throughout the Caribbean in order to tease out the relationships between political economy, hospitality, and the legacies of slavery and colonialism. Drawing on case studies from Barbados, the Bahamas, Guadeloupe, Saint Martin, and Saint Lucia, the contributors point to the myriad ways live performances, programmed music, and the sonic environment heighten tourists' pleasurable vacation experience. They explore, among other topics, issues of authenticity in Bahamian music; efforts to give tourists in Barbados peace and quiet at a former site of colonial violence; and how resort soundscapes extend beyond music to encompass the speech accents of local residents. Through interviews with resort managers, musicians, and hospitality workers, the contributors also outline the social, political, and economic pressures and interests that affect musical labor and the social encounters of musical production. In so doing, they prompt a rethinking of how to account for music and sound's resonances in postcolonial spaces. Contributors. Jerome Camal, Steven Feld, Francio Guadeloupe, Jocelyne Guilbault, Jordi Halfman, Susan Harewood, Percy C. Hintzen, Timothy Rommen

Race Rights Reparations Fernne Brennan 2017-07-14 This book considers institutional racism as a problem that exists within modern societies. Its roots lie with the transatlantic slave trade and slavery and the solution involves ridding society of the problem. It is argued here that, first, there needs to be an acceptance of its existence, then developing the tools needed to deal with it and, finally, to implement those tools so that institutional racism can be permanently removed from society. The book has four themes: the first considers the nature of institutional racism, the second theme looks at instances of institutional racism through matters such as deaths in custody and skin lightening, the third considers the concept of reparations and the final area looks at the development of social movements as a way of pushing institutional racism up the political agenda. The development of a social movement is part of a social discourse which would, for example, push mentoring as a form of reparations. There is a need for more research on the manifestations of institutional racism and this book is part of that discourse. It is argued that the legacy of the slave trade and slavery is continuing and contemporary through the presence of institutional racism in society. This problem has not been addressed through legislation and policies devised to combat racial discrimination. Institutional racism needs to be understood as being located in the processes and procedures of societal institutions.

Internet and Society in Latin America and the Caribbean International Development Research Centre (Canada) 2004 This book presents pioneering research that is designed to show, from a qualitative and ethnographic perspective, how new information and communication technologies, as applied to the school system and to local governance initiatives, merely reproduce traditional pedagogical approaches and the dominant forms by which power is exercised at the local level. The studies thus constitute points of departure for further thinking about the need to promote an Internet culture based on the social application of a OC right to communication and culture OCO and an OC Internet right, OCO that will permit the establishment of true citizen participation and free access to knowledge, with due regard to personal and individual rights such as those of privacy and intimacy."

#### Context

Wait No More Benjamin Roseth 2018-06-06 This book is about the smallest unit of public policy: the government transaction. Government transactions—requesting a birth certificate, registering a property, or opening a business, for example—are the way that citizens and companies connect with the government. Efficient transactions enhance the business climate, citizen perception of government, and access to crucial public programs and services. In Latin America and the Caribbean, however, government transactions are often headaches. Public institutions rarely coordinate with each other, still rely on paper, and are more concerned about fulfilling bureaucratic requirements than meeting citizens' needs. Wait No More empirically confirms a reality known anecdotally but previously unquantified and offers a path to escape the bureaucratic maze.

Measuring and Implementing Altmetrics in Library and Information Science Research Baskaran, C. 2020-01-17 Researchers are becoming increasingly concerned with tracking the impact and reach that their research has on the academic community. Through the

implementation of altmetrics, they can now better measure the value that their research has through the analysis of citing behavior and citation-based research evaluation. *Measuring and Implementing Altmetrics in Library and Information Science Research* is a critical research book that focuses on how altmetrics can help researchers to uncover evidence of societal engagement, influence, and broader impacts that demonstrate the value of their research. It builds a more complete picture of the visibility and profile of individual researchers and observes real-time social media updates that provide insight into how faculty's research is being shared from the moment it is published. Featuring a range of topics such as citations, big data, and social media, this book is essential for researchers, educators, librarians, professionals, academicians, administrators, and students.

*Research Beyond Borders* Lise-Hélène Smith 2011-12-28 This collection draws insights from an interdisciplinary group of scholars specializing in diverse methods used in the social sciences and humanities to reflect on the empirical, methodological, and practical implications of conducting research beyond one's national borders. This book seeks to help researchers consider the need for transnational multidisciplinary practices that remain aware of the inequalities that continually inform current or dominant research practices.

*Native on the Net* Kyra Landzelius 2004-11-01 Exploring the influence of the Internet on the lives of indigenous and diasporic peoples, Kyra Landzelius leads a team of expert anthropologists and ethnographers who go on-site and on-line to explore how a diverse range of indigenous and transnational diasporic communities actually use the Internet. From the Taino Indians of the Caribbean, the U'wa of the Amazon rainforest, and the Tunomans and Assyrians of Iraq, to the Tingas and Zapatistas, *Native on the Net* is a lively and intriguing exploration of how new technologies have enabled these previously isolated peoples to reach new levels of communication and community: creating new communities online, confronting global corporations, or even challenging their own native traditions. Featuring case studies ranging from the Arctic to the Australian outback, this book addresses important recurrent themes, such as the relationship between identity and place, community, traditional cultures and the nature of the 'indigenous'. *Native on the Net* is a unique contribution to our knowledge of the impact of new global communication technologies on those who have traditionally been geographically, politically and economically marginalised.

*The SAGE Handbook of Intellectual Property* Matthew David 2014-11-18 This Handbook brings together scholars from around the world in addressing the global significance of, controversies over and alternatives to intellectual property (IP) today. It brings together over fifty of the leading authors in this field across the spectrum of academic disciplines, from law, economics, geography, sociology, politics and anthropology. This volume addresses the full spectrum of IP issues including copyright, patent, trademarks and trade secrets, as well as parallel rights and novel applications. In addition to addressing the role of IP in an increasingly information based and globalized economy and culture, it also challenges the utility and viability of IP today and addresses a range of alternative futures.

*Electronic Commerce* Elias M. Awad 2005 This briefer text gives students an overview of managerial and technical concepts of e-commerce. The material follows a life cycle approach to show students the entire process of e-commerce from "vision" or strategic planning to "fulfillment" for delivery of products and services with the goal of customer satisfaction.
