They sit in silence, judging each other by what they see, by the stories they've heard over the years. Stuck here with them--could anything be worse? There's Alice: an introverted writer, trapped in the role of big sister to her older autistic brother, Noah. Isabelle: the popular, high-achieving, student council president, whose greatest performance is her everyday life. Hogan: an ex-football player with a troubled past and a hopeless future. Xander: that socially awkward guy hiding behind the camera, whose candid pictures of school life, especially those of Isabelle, have brought him more trouble than answers. Told in five unique voices through prose, poetry, text messages, journals, and homework assignments, each student reveals pieces of their true story as they wait for the drill to end. But this modern-day Breakfast Club takes a twist when Isabelle gets a text that changes everything: NOT A DRILL!! Shooter in the school! Suddenly, the bathroom doesn't seem so safe anymore. Especially when they learn that one of them knows more about the shooter than they realized...

Lights Out Thomas Gryta 2020 How could General Electric--perhaps America's most iconic corporation--suffer such a swift and sudden fall from grace? This is the definitive history of General Electric's epic decline, as told by the two Wall Street Journal reporters who covered its fall. Since its founding in 1892, GE has been more than just a corporation. For generations, it was job security, a solidly safe investment, and an elite business education for top managers. GE electrified America, powering everything from lightbulbs to turbines, and became fully integrated into the American societal mindset as few companies ever had. And after two decades of leadership under legendary CEO Jack Welch, GE entered the twenty-first century as America's most valuable corporation. Yet, fewer than two decades later, the GE of old was gone. ?Lights Out examines how Welch's handpicked successor, Jeff Immelt, tried to fix flaws in Welch's profit machine, while stumbling headlong into mistakes of his own. In the end, GE's traditional win-at-all-costs driven culture seemed to lose its direction, which ultimately caused the company's decline on both a personal and organizational scale. Lights Out details how one of America's all-time great companies has been reduced to a cautionary tale for our times.

Inductive Reasoning in the Secondary Classroom Gloria A. Neubert 1992 It has been alleged that few American students can use their knowledge effectively in thinking and reasoning. This study urges teachers to give more attention to student abilities in analyzing, classifying, comparing, formulating hypotheses, and drawing conclusions--that is, thinking skills essential to reasoning processes. Designed to familiarize secondary classroom teachers with one model of instruction for developing students' reasoning abilities, this book gives practical assistance in learning how to use the inductive approach, a teaching approach that actively involves students in the use of their own reasoning while learning content area material. Each chapter of the book includes a section that asks readers to recall experience pertinent to the material in the chapter, a set of questions to answer as the material is read, and a series of activities designed to lead readers through the developmental stages of the learning process. Chapters of the book are: (1) What is the inductive approach? (2) Why use the inductive approach? (3) How to use the inductive approach for concept development; (4) How to use the inductive approach for principle formation; (5) Inductive reasoning in English; (6) Inductive reasoning in mathematics; (7) Inductive reasoning in science; and (8) Inductive reasoning in social studies. A 90-item bibliography is attached. (RS)
