Critical Path R. Buckminster Fuller 1982-02-15 The masterwork of a brilliant career, and an important document of the crisis now facing mankind. Today we find ourselves in the midst of the greatest crisis in the history of the human race.

Technology has placed in our hands almost unlimited power at the very moment when we have run up against the limits of our resources aboard Spaceship Earth, as the crises of the late twentieth century—political, economic, environmental, and ethical—determine whether or not humanity survives. In this masterful summing up of an entire lifetime's thought and concern, R. Buckminster Fuller addresses these crucial issues in his most significant, accessible, and urgent work.

Critical Path traces the origins and evolution of humanity's social, political, and economic systems from the obscure mists of prehistory, through the development of the great political empires, to the vast international corporate and political systems that control our destiny today to show how we got to our present situation and what options are available to man. With his customary brilliance, extraordinary energy, and unlimited devotion, Bucky Fuller shows how mankind can survive, and how each individual can respond to the unprecedented threat we face today. The crowning achievement of an extraordinary career, Critical Path offers the reader the excitement of understanding the essential dilemmas of our time and how responsible citizens can rise to meet this ultimate challenge to our future.

Mathematics Learning in Early Childhood National Research Council 2009-11-13 Early childhood mathematics is vitally important for young children's present and future educational success. Research demonstrates that virtually all young children have the capability to learn and become competent in mathematics. Furthermore, young children enjoy their early informal experiences with mathematics. Unfortunately, many children's potential in mathematics is not fully realized, especially those children who are economically disadvantaged. This is due, in part, to a lack of opportunities to learn mathematics in early childhood settings or through everyday experiences in the home and in their communities.

Improvements in early childhood mathematics education can provide young children with the foundation for school success. Relying on a comprehensive review of the research, Mathematics Learning in Early Childhood lays out the critical areas that should be the focus of young children's early mathematics education, explores the extent to which they are currently being incorporated in early childhood settings, and identifies the changes needed to improve the quality of mathematics experiences for young children. This book serves as a call to action to improve the state of early childhood mathematics. It will be especially useful for policy makers and practitioners—those who work directly with children and their families in shaping the policies that affect the education of young children.

The Renaissance Society: How the Shift from Dream Society to the Age of Individual Control will Change the Way You Do Business Rolf Jensen 2013-05-03 A BOLD NEW VISION FOR THE FUTURE OF BUSINESS, FROM THE BESTSELLING AUTHOR OF THE DREAM SOCIETY. THIS IS A BOOK ABOUT THE FUTURE. Your future. Our future. The future of companies, the marketplace, and society. According to futurists Rolf Jensen and Mika Aaltonen, we are currently "between dreams." We've managed to achieve many of our material goals, only to face ever-growing global competition in an ever-slowng economy. Here's the good news: With the rise of social media and online resources, consumers are growing more powerful. Individuals are exploring more options. And smart businesses are discovering more ways to appeal to this powerful new community. Welcome to The Renaissance Society. A world-class network of ordinary people who are changing the way companies and communities interact, they are the future--and they are us. This forward-thinking book guides you through tomorrow's hottest trends to help you: Make an emotional connection to your customers Create a value-driven company that engages your employees Adjust your business strategy for a flatter, global marketplace Reward individual expression and spark a tribal spirit Identify future trends to build long-term success Jensen and Aaltonen's razor-sharp predictions offer a much-needed headsup--and a major head-start--for your future success. You'll explore revolutionary ways in which the individual's role will shift from consumer to creator--much like it did during the European Renaissance. You'll find out why learning will become the world's largest industry and how services will become the twenty-first century's biggest growth market. You'll see a powerful shift in the concept of ownership, the role of employees within a company, and the role of companies in society. Most important, you'll be able to turn these fascinating predictions into real-world opportunities for decades to come. In The Renaissance Society, everybody matters. Each and every one of us has the power to reshape the future of our companies. To reignite the passion of our communities. And to restore our faith in ourselves, our dreams, and our limitless potential for growth. PRAISE FOR THE RENAISSANCE SOCIETY "Jensen and Aaltonen have created a captivating portrait of tomorrow, one that inspires us to think of alternatives. Decision makers in all fields will find that this book provides powerful reasons to question their grasp of the present." -- Riel Miller, Foresight Director, UNESCO "Mika and Rolf inspire our thinking and action with a book based on solid theory--and their vast experience working with leading international companies. It is a valuable reference for leaders in both business and politics." -- DR. STEFAN BERGHEIM, DIRECTOR, CENTER FOR SOCIETAL PROGRESS, GERMANY "The Renaissance Society is a fascinating and highly readable guide to the future and the possibilities it holds. These are hard times for many people but this book helps to lift our sights and see the scope now emerging for a step change in human achievement." -- Matthew Taylor, Chief Executive, Royal Society of Arts
