Moles Paul B Janeczko hence simple!

You Call This Democracy? Elizabeth Rusch 2020-03-31 America is the greatest democracy in the world . . . isn't it? Author Elizabeth Rusch examines some of the more problematic aspects of our government but, more importantly, offers ways for young people to fix them. The political landscape has never been so tumultuous: issues with the electoral college, gerrymandering, voter suppression, and a lack of representation in the polls and in our leadership have led to Americans of all ages asking, How did we get here? The power to change lies with the citizens of this great country--especially teens Rather than pointing fingers at people and political parties, You Call This Democracy? looks at flaws in the system--and offers a real way out of the mess we are in. Each chapter breaks down a different problem plaguing American democracy, exploring how it's undemocratic, offering possible solutions (with examples of real-life teens who have already started working toward them), and suggesting ways to effect change--starting NOW

True Believer Kati Marton 2016-09-06 Noel Field, once a well-meaning and privileged American, spied for Stalin during the 1930s and '40s. Then a pawn in Stalin's sinister master strategy, Field was kidnapped and tortured by the KGB and forced to testify against

his own Communist comrades

King of Spies Blaine Harden 2017 In 1946, master sergeant Donald Nichols was stationed on Guam when he caught the eye of recruiters from the Army's Counter Intelligence Corps. After three months' training he was sent to Korea, then a backwater largely beneath the radar of MacArthur's Pacific Command. Nichols quickly insinuated himself into the affections of South Korea's first president, Syngman Rhee, and became a key player in the American war effort. Harden traces Nichols's rise and ruin-- and in doing so explains the history of our foreign policy mess with North Korea.

The Dark Game Paul B. Janeczko 2010 A collection of true spy stories from throughout the history of the United States, discussing personalities, missions, traitors, technological advances, and more.

The Princess Spy Larry Loftis 2021-02-09 INSTANT NEW YORK TIMES, WALL STREET JOURNAL, AND USA TODAY BESTSELLER "As exciting as any spy novel" (Daily News, New York), The Princess Spy follows the hidden history of an ordinary American girl who became one of the OSS's most daring World War II spies before marrying into European nobility. Perfect for fans of A Woman of No Importance and Code Girls. When Aline Griffith was born in a quiet suburban New York hamlet, no one had any idea that she would go on to live "a life of glamour and danger that Ingrid Bergman only played at in Notorious" (Time). As the

United States enters the Second World War, the young college graduate is desperate to aid in the war effort, but no one is interested in a bright-eyed young woman whose only career experience is modeling clothes. Aline's life changes when, at a dinner party, she meets a man named Frank Ryan and reveals how desperately she wants to do her part for her country. Within a few weeks, he helps her join the Office of Strategic Services—forerunner of the CIA. With a code name and expert training under her belt, she is sent to Spain to be a coder, but is soon given the additional assignment of infiltrating the upper echelons of society, mingling with high-ranking officials, diplomats, and titled Europeans. Against this glamorous backdrop of galas and dinner parties, she recruits sub-agents and engages in deep-cover espionage. Even after marrying the Count of Romanones, one of the wealthiest men in Spain, Aline secretly continues her covert activities, being given special assignments when abroad that would benefit from her impeccable pedigree and social connections. “[A] meticulously researched, beautifully crafted work of nonfiction that reads like a James Bond thriller” (Bookreporter), *The Princess Spy* brings to vivid life the dazzling adventures of a spirited American woman who risked everything to serve her country.

[The Unlikely Spy](#) Daniel Silva 2003-05-06 #1 New York Times bestselling author Daniel Silva's celebrated debut novel, *The Unlikely Spy*, is “A ROLLER-COASTER WORLD WAR II ADVENTURE

that conjures up memories of the best of Ken Follett and Frederick Forsyth” (The Orlando Sentinel). “In wartime,” Winston Churchill wrote, “truth is so precious that she should always be attended by a bodyguard of lies.” For Britain’s counterintelligence operations, this meant finding the unlikeliest agent imaginable—a history professor named Alfred Vicary, handpicked by Churchill himself to expose a highly dangerous, but unknown, traitor. The Nazis, however, have also chosen an unlikely agent. Catherine Blake is the beautiful widow of a war hero, a hospital volunteer—and a Nazi spy under direct orders from Hitler: uncover the Allied plans for D-Day...

The Dark Game 2010 Describes the contributions and techniques of American spies over the course of the past two centuries, recounting dramatic missions while profiling such historical figures as anti-slavery spy Elizabeth Van Lew and the "Choctaw code talkers."

The Dark Game Paul B. Janeczko 2012-09-11 "A wealth of information in an engaging package." — Kirkus Reviews Ever since George Washington used them to help topple the British, spies and their networks have helped and hurt America at key moments in history. In this fascinating collection, Paul B. Janeczko probes examples from clothesline codes to surveillance satellites and cyber espionage. Colorful personalities, daring missions, the feats of the loyal, and the damage of traitors are interspersed with a look at the technological advances that continue to change

the rules of gathering intelligence. Back matter includes source notes and a bibliography.

*The Scarlet Stockings Spy* Trinka Hakes Noble 2011-08-18 Philadelphia 1777 is no place for the faint of heart. The rumble of war with the British grows louder each day, and spies for and against the Patriots are everywhere. No one is above suspicion. Still, everyday life must go on and young Maddy Rose must help her mother, especially since her father's death at the Battle of Princeton and now with her beloved brother Jonathan off with Washington's army. But when childhood games become life-and-death actions, Maddy Rose is drawn ever deeper into events that will explode beyond her imagining. As young America stands on the very brink of its fight for freedom, it becomes clear that even the smallest of citizens can play the largest of parts, and that the role of a patriot has nothing to do with age and everything to do with heart. In *The Scarlet Stockings Spy*, Trinka Hakes Noble melds a suspenseful tale of devotion, sacrifice, and patriotism with the stark realities of our country's birth. Noted picture book author and illustrator Trinka Hakes Noble has pursued the study of children's book writing and illustrating in New York City at Parsons School of Design, the New School University, Caldecott medalist Uri Shulevitz's Greenwich Village Workshop, and New York University. She has authored and illustrated numerous books including the popular *Jimmy's Boa* series, which has been translated

into six languages. Trinka lives in Bernardsville, New Jersey. *The Scarlet Stockings Spy* is her first book with Sleeping Bear Press. Because Robert Papp's childhood drawings of his favorite superheros were such a pleasure, it was only natural that he would wind up an illustrator. Nowadays, his award-winning artwork appears on book covers and in magazines instead of on the refrigerator. He has produced hundreds of cover illustrations for major publishers across the United States. Robert lives in historic Bucks County, Pennsylvania.

*A Perfect Spy* John le Carré 2011-07-20 "The best English novel since the war." -- Philip Roth Over the course of his seemingly irreproachable life, Magnus Pym has been all things to all people: a devoted family man, a trusted colleague, a loyal friend—and the perfect spy. But in the wake of his estranged father's death, Magnus vanishes, and the British Secret Service is up in arms. Is it grief, or is the reason for his disappearance more sinister? And who is the mysterious man with the sad moustache who also seems to be looking for Magnus? In *A Perfect Spy*, John le Carré has crafted one of his crowning masterpieces, interweaving a moving and unusual coming-of-age story with a morally tangled chronicle of modern espionage.

*The Code Book* Simon Singh 2011-01-26 In his first book since the bestselling *Fermat's Enigma*, Simon Singh offers the first sweeping history of encryption,

tracing its evolution and revealing the dramatic effects codes have had on wars, nations, and individual lives. From Mary, Queen of Scots, trapped by her own code, to the Navajo Code Talkers who helped the Allies win World War II, to the incredible (and incredibly simple) logistical breakthrough that made Internet commerce secure, *The Code Book* tells the story of the most powerful intellectual weapon ever known: secrecy. Throughout the text are clear technical and mathematical explanations, and portraits of the remarkable personalities who wrote and broke the world's most difficult codes. Accessible, compelling, and remarkably far-reaching, this book will forever alter your view of history and what drives it. It will also make you wonder how private that e-mail you just sent really is.

*The Most Dangerous Game* by Richard Connell or *The Hounds of Zaroff* | Alltime Bestseller Book From the Author of Books Like: *The Sin of Monsieur Pettipon, and Other Humorous Tales* / *El malvado Zaroff* / *Delitto in mare* / *What Ho!* Richard Connell 2021-01-01 From the Author of Books Like: 1. *The Sin of Monsieur Pettipon, and Other Humorous Tales* 2. *El malvado Zaroff* 3. *Delitto in mare* 4. *What Ho!* 5. *The Sin of Monsieur Pettipon* 6. *Apes And Angels* 7. *From Observables to Unobservables in Science and Philosophy* 8. *The Mad Lover* About the Book: *The Most Dangerous Game*, also published as *The Hounds of Zaroff*, is a short story by Richard Connell first

published in Collier's magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s. Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt. After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan. Zaroff, another big-game hunter, knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for sport, giving them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff,

Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for The Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in, smoking a cigarette, and then abruptly departing. After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind: the difficulty of replacing Ivan and the uncertainty of whether Rainsford perished in his dive. About the Author : Richard Edward Connell, Jr. was an

American author and journalist, best known for his short story "The Most Dangerous Game." Connell was one of the best-known American short story writers of his time and his stories appeared in the Saturday Evening Post and Collier's Weekly. Connell had equal success as a journalist and screenwriter. He was nominated for an Academy Award in 1942 for best original story for the film Meet John Doe.

Churchill's Secret Spy Raymond Buckland 2016-04-06  
Winston Churchill has a "Secret Circle" of specially trained spies who are answerable only to him. Kirsteen Craig, a young nurse who shows her bravery during a London bombing raid, is recruited by Churchill and trained to go into occupied France to try to locate a top operative who has gone missing. After blending in with the French Resistance, Kirsteen manages to make a number of important contacts but is eventually discovered by the Gestapo and imprisoned. However, she manages to escape. A Gestapo officer befriends her and seems to become attracted to her. She finds herself similarly attracted to him, and through him learns much about the occupying forces. Kirsteen helps the local Resistance in attempting to sabotage the railway lines outside Paris but she is once again captured by the Germans and is tortured. Can she again escape, finally locate the missing British spy, and get him back to England?

Tinker, Tailor, Soldier, Spy John le Carré 2011-06-07  
From the New York Times bestselling author of A

Legacy of Spies. The man he knew as "Control" is dead, and the young Turks who forced him out now run the Circus. But George Smiley isn't quite ready for retirement—especially when a pretty, would-be defector surfaces with a shocking accusation: a Soviet mole has penetrated the highest level of British Intelligence. Relying only on his wits and a small, loyal cadre, Smiley recognizes the hand of Karla—his Moscow Centre nemesis—and sets a trap to catch the traitor. The Oscar-nominated feature film adaptation of *Tinker Tailor Soldier Spy* is directed by Tomas Alfredson (*Let the Right One In*) and features Gary Oldman as Smiley, Academy Award winner Colin Firth (*The King's Speech*), and Tom Hardy (*Inception*). With an introduction by the author.

*In Disguise!* Ryan Ann Hunter 2013-02-12 Investigate real-life adventures of espionage in this collection of impressive and inspiring profiles. Spanning more than 300 years and numerous countries, *In Disguise!* details the lives of some of history's most daring women, all of whom risked their lives to stand up for their beliefs. Originally published a decade ago, this fully updated and expanded edition of *In Disguise!* profiles twenty-eight daring international secret agents, from Harriet Tubman, who freed hundreds of slaves during the Civil War, to Eva Wu, who hid secret messages in her hair to aid the Chinese Revolution, to the modern-day exploits of former CIA agent Valerie Plame. With riveting narratives, fun quizzes to determine if you

have what it takes to go undercover, secret-agent trivia, and short spotlight bios, *In Disguise!* is sure to engage and inspire.

**The Dark Game** Paul B. Janeczko 2010 Describes the contributions and techniques of American spies over the course of the past two centuries, recounting dramatic missions while profiling such historical figures as anti-slavery spy Elizabeth Van Lew and the "Choctaw code talkers."

**Fallout** Steve Sheinkin 2021-09-07 New York Times bestselling author Steve Sheinkin presents a follow up to his award-winning book *Bomb: The Race to Build--and Steal--the World's Most Dangerous Weapon*, taking readers on a terrifying journey into the Cold War and our mutual assured destruction. As World War II comes to a close, the United States and the Soviet Union emerge as the two greatest world powers on extreme opposites of the political spectrum. After the United States showed its hand with the atomic bomb in Hiroshima, the Soviets refuse to be left behind. With communism sweeping the globe, the two nations begin a neck-and-neck competition to build even more destructive bombs and conquer the Space Race. In their battle for dominance, spy planes fly above, armed submarines swim deep below, and undercover agents meet in the dead of night. The Cold War game grows more precarious as weapons are pointed towards each other, with fingers literally on the trigger. The decades-long showdown culminates in the Cuban Missile Crisis,

the world's close call with the third—and final—world war. Spies Marc Favreau 2019-10-01 A thrilling, critically-acclaimed account of the Cold War spies and spycraft that changed the course of history, perfect for readers of Bomb and The Boys Who Challenged Hitler. The Cold War spanned five decades as America and the USSR engaged in a battle of ideologies with global ramifications. Over the course of the war, with the threat of mutually assured nuclear destruction looming, billions of dollars and tens of thousands of lives were devoted to the art and practice of spying, ensuring that the world would never be the same. Rife with intrigue and filled with fascinating historical figures whose actions shine light on both the past and present, this timely work of narrative nonfiction explores the turbulence of the Cold War through the lens of the men and women who waged it behind closed doors, and helps explain the role secret and clandestine operations have played in America's history and its national security.

The Swiss Spy Alex Gerlis 2020-03-02 A thrilling tale based on top-secret Nazi plans to invade the Soviet Union... All spies have secrets, but Henry Hunter has more than most. After he is stopped by British Intelligence at Croydon airport on the eve of the Second World War, he discovers one more devastating than any before. From Switzerland he embarks on a series of increasingly perilous missions

into Nazi Germany, all while having to cope with various identities and competing spymasters. In March, 1941, in Berlin, haunted by a dark episode from his past, he makes a fateful decision, resulting in a dramatic journey to the Swiss frontier and a shocking encounter... A pulse-pounding spy novel for the ages, perfect for fans of Robert Harris, John le Carré and Ken Follett.

How to Catch a Russian Spy Naveed Jamali 2015-06-23 With an epilogue on recent Russian spying, a “page-turner of a memoir” (Publishers Weekly) about an American civilian with a dream, who worked as a double agent with the FBI in the early 2000s to bring down a Russian intelligence agent in New York City. For three nerve-wracking years, from 2005 to 2008, Naveed Jamali spied on America for the Russians, trading thumb drives of sensitive technical data for envelopes of cash, selling out his beloved country across noisy restaurant tables and in quiet parking lots. Or so the Russians believed. In fact, Jamali was a covert double agent working with the FBI. The Cold War wasn't really over. It had just gone high-tech. “A classic case of American counterespionage from the inside...a never-ending game of cat and mouse” (The Wall Street Journal), How to Catch a Russian Spy is the story of how one young man's post-college-adventure became a real-life intelligence coup. Incredibly, Jamali had no previous counterespionage experience. Everything he knew about undercover

work he'd picked up from TV cop shows and movies, yet he convinced the FBI and the Russians they could trust him. With charm, cunning, and bold naiveté, he matched wits with a veteran Russian military-intelligence officer, out-maneuvering him and his superiors. Along the way, Jamali and his FBI handlers exposed espionage activities at the Russian Mission to the United Nations. Jamali now reveals the full riveting story behind his double-agent adventure—from coded signals on Craigslist to clandestine meetings at Hooter's to veiled explanations to his worried family. He also brings the story up to date with an epilogue showing how the very same playbook the Russians used on him was used with spectacularly more success around the 2016 election. Cinematic, news-breaking, and "an entertaining and breezy read" (The Washington Post), *How to Catch a Russian Spy* is an armchair spy fantasy brought to life.

*Double Cross: Deception Techniques in War* Paul B. Janeczko 2017-05-23 How does deception factor into fighting wars, and is it effective? In an intriguing companion to *The Dark Game*, Paul B. Janeczko reveals the truth about the strategic lies of war. The biblical account of Gideon. The ancient story of the Trojan horse. Deceptive techniques have been used in war through the ages. But while the principles have changed very little, the technology behind fooling the enemy has evolved dramatically. Paul B. Janeczko's fascinating chronology focuses on the American Civil

War, World Wars I and II, and the Korean War, the Vietnam War, and the Gulf Wars to reveal evolving attitudes toward the use and effectiveness of deceptive operations. Find out the secret plan behind the invasion of Normandy and the details of General Schwarzkopf's "Hail Mary play" during the Gulf War, among many other strategies and maneuvers designed to pull the wool over enemies' eyes. Back matter includes source notes and a bibliography.

Betrayal in Berlin Steve Vogel 2019-09-24 "A riveting and vivid account. ... A remarkable story. ... It reads like a Hollywood screenplay." —Foreign Affairs The astonishing true story of the Berlin Tunnel, one of the West's greatest espionage operations of the Cold War—and the dangerous Soviet mole who betrayed it. Its code name was "Operation Gold," a wildly audacious CIA plan to construct a clandestine tunnel into East Berlin to tap into critical KGB and Soviet military telecommunication lines. The tunnel, crossing the border between the American and Soviet sectors, would have to be 1,500 feet (the length of the Empire State Building) with state-of-the-art equipment, built and operated literally under the feet of their Cold War adversaries. Success would provide the CIA and the British Secret Intelligence Service access to a vast treasure of intelligence. Exposure might spark a dangerous confrontation with the Soviets. Yet as the Allies were burrowing into the German soil, a traitor, code-named Agent Diamond by his Soviet handlers,

was burrowing into the operation itself. . . Betrayal in Berlin is Steve Vogel's heart pounding account of the operation. He vividly recreates post-war Berlin, a scarred, shadowy snake pit with thousands of spies and innumerable cover stories. It is also the most vivid account of George Blake, perhaps the most damaging mole of the Cold War. Drawing upon years of archival research, secret documents, and rare interviews with Blake himself, Vogel has crafted a true-life spy story as thrilling as the novels of John le Carré and Len Deighton. Betrayal in Berlin includes 24 photos and two maps.

The Formative Years of an African-American Spy  
Odell Bennett Lee 2012-12-19 The author describes his early life, growing up in a dysfunctional family, and how he ended up becoming a CIA case officer.

Harriet the Spy Louise Fitzhugh 2021-11-09 A groundbreaking book in its unflinchingly honest portrayal of childhood dilemmas, "Harriet the Spy" remains one of the most acclaimed children's novels ever written.

Life Undercover Amaryllis Fox 2019-10-15 INSTANT NEW YORK TIMES BESTSELLER "Fast and thrilling . . . Life Undercover reads as if a John le Carré character landed in Eat Pray Love." —The New York Times Amaryllis Fox's riveting memoir tells the story of her ten years in the most elite clandestine ops unit of the CIA, hunting the world's most dangerous terrorists in sixteen countries while marrying and giving birth to a

daughter Amaryllis Fox was in her last year as an undergraduate at Oxford studying theology and international law when her writing mentor Daniel Pearl was captured and beheaded. Galvanized by this brutality, Fox applied to a master's program in conflict and terrorism at Georgetown's School of Foreign Service, where she created an algorithm that predicted, with uncanny certainty, the likelihood of a terrorist cell arising in any village around the world. At twenty-one, she was recruited by the CIA. Her first assignment was reading and analyzing hundreds of classified cables a day from foreign governments and synthesizing them into daily briefs for the president. Her next assignment was at the Iraq desk in the Counterterrorism center. At twenty-two, she was fast-tracked into advanced operations training, sent from Langley to "the Farm," where she lived for six months in a simulated world learning how to use a Glock, how to get out of flexicuffs while locked in the trunk of a car, how to withstand torture, and the best ways to commit suicide in case of captivity. At the end of this training she was deployed as a spy under non-official cover--the most difficult and coveted job in the field as an art dealer specializing in tribal and indigenous art and sent to infiltrate terrorist networks in remote areas of the Middle East and Asia. Life Undercover is exhilarating, intimate, fiercely intelligent--an impossible to put down record of an extraordinary life, and of Amaryllis Fox's

astounding courage and passion.

Agent Sonya Ben Macintyre 2020-09-15 NEW YORK TIMES BESTSELLER • The “master storyteller” (San Francisco Chronicle) behind the New York Times bestseller *The Spy and the Traitor* uncovers the true story behind one of the Cold War’s most intrepid spies. “[An] immensely exciting, fast-moving account.”—The Washington Post NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Foreign Affairs • Kirkus Reviews • Library Journal In 1942, in a quiet village in the leafy English Cotswolds, a thin, elegant woman lived in a small cottage with her three children and her husband, who worked as a machinist nearby. Ursula Burton was friendly but reserved, and spoke English with a slight foreign accent. By all accounts, she seemed to be living a simple, unassuming life. Her neighbors in the village knew little about her. They didn’t know that she was a high-ranking Soviet intelligence officer. They didn’t know that her husband was also a spy, or that she was running powerful agents across Europe. Behind the facade of her picturesque life, Burton was a dedicated Communist, a Soviet colonel, and a veteran agent, gathering the scientific secrets that would enable the Soviet Union to build the bomb. This true-life spy story is a masterpiece about the woman code-named “Sonya.” Over the course of her career, she was hunted by the Chinese, the Japanese, the Nazis, MI5, MI6, and the FBI—and she evaded them all. Her story reflects the

great ideological clash of the twentieth century—between Communism, Fascism, and Western democracy—and casts new light on the spy battles and shifting allegiances of our own times. With unparalleled access to Sonya's diaries and correspondence and never-before-seen information on her clandestine activities, Ben Macintyre has conjured a page-turning history of a legendary secret agent, a woman who influenced the course of the Cold War and helped plunge the world into a decades-long standoff between nuclear superpowers.

The Billion Dollar Spy David E. Hoffman 2015-07-07  
From the author of the Pulitzer Prize-winning history *The Dead Hand* comes the riveting story of a spy who cracked open the Soviet military research establishment and a penetrating portrait of the CIA's Moscow station, an outpost of daring espionage in the last years of the Cold War. While driving out of the American embassy in Moscow on the evening of February 16, 1978, the chief of the CIA's Moscow station heard a knock on his car window. A man on the curb handed him an envelope whose contents stunned U.S. intelligence: details of top-secret Soviet research and developments in military technology that were totally unknown to the United States. In the years that followed, the man, Adolf Tolkachev, an engineer in a Soviet military design bureau, used his high-level access to hand over tens of thousands of pages of technical secrets. His revelations allowed America to

reshape its weapons systems to defeat Soviet radar on the ground and in the air, giving the United States near total superiority in the skies over Europe. One of the most valuable spies to work for the United States in the four decades of global confrontation with the Soviet Union, Tolkachev took enormous personal risks—but so did the Americans. The CIA had long struggled to recruit and run agents in Moscow, and Tolkachev was a singular breakthrough. Using spy cameras and secret codes as well as face-to-face meetings in parks and on street corners, Tolkachev and his handlers succeeded for years in eluding the feared KGB in its own backyard, until the day came when a shocking betrayal put them all at risk. Drawing on previously secret documents obtained from the CIA and on interviews with participants, David Hoffman has created an unprecedented and poignant portrait of Tolkachev, a man motivated by the depredations of the Soviet state to master the craft of spying against his own country. Stirring, unpredictable, and at times unbearably tense, *The Billion Dollar Spy* is a brilliant feat of reporting that unfolds like an espionage thriller.

Double Cross Ben Macintyre 2012-01-01 The number one bestselling author of *Agent Zigzag* and *Operation Mincemeat* exposes the true story of the D Day Spies.

Mother Night Kurt Vonnegut 2009-08-11 “Vonnegut is George Orwell, Dr. Caligari and Flash Gordon compounded into one writer . . . a zany but moral mad scientist.”—*Time* *Mother Night* is a daring challenge to

our moral sense. American Howard W. Campbell, Jr., a spy during World War II, is now on trial in Israel as a Nazi war criminal. But is he really guilty? In this brilliant book rife with true gallows humor, Vonnegut turns black and white into a chilling shade of gray with a verdict that will haunt us all. "A great artist."—Cincinnati Enquirer "A shaking up in the kaleidoscope of laughter . . . Reading Vonnegut is addictive!"—Commonweal

Behind Enemy Lines Marthe Cohn 2006-03 An inspirational memoir chronicles the exploits and experiences of a young Jewish woman who ventured behind enemy lines and masqueraded as a German nurse searching for her soldier boyfriend among Nazi forces in order to acquire critical information about German troop movements for the allies. Reprint. 10,000 first printing.

The Spy and the Traitor Ben Macintyre 2018-09-18  
NEW YORK TIMES BESTSELLER • The celebrated author of *Double Cross* and *Rogue Heroes* returns with his greatest spy story yet, a thrilling American-era tale of Oleg Gordievsky, the Russian whose secret work helped hasten the end of the Cold War. "The best true spy story I have ever read."—JOHN LE CARRÉ  
Named a Best Book of the Year by *The Economist* • Shortlisted for the Bailie Giffords Prize in Nonfiction  
If anyone could be considered a Russian counterpart to the infamous British double-agent Kim Philby, it was Oleg Gordievsky. The son of two KGB agents and the

product of the best Soviet institutions, the savvy, sophisticated Gordievsky grew to see his nation's communism as both criminal and philistine. He took his first posting for Russian intelligence in 1968 and eventually became the Soviet Union's top man in London, but from 1973 on he was secretly working for MI6. For nearly a decade, as the Cold War reached its twilight, Gordievsky helped the West turn the tables on the KGB, exposing Russian spies and helping to foil countless intelligence plots, as the Soviet leadership grew increasingly paranoid at the United States's nuclear first-strike capabilities and brought the world closer to the brink of war. Desperate to keep the circle of trust close, MI6 never revealed Gordievsky's name to its counterparts in the CIA, which in turn grew obsessed with figuring out the identity of Britain's obviously top-level source. Their obsession ultimately doomed Gordievsky: the CIA officer assigned to identify him was none other than Aldrich Ames, the man who would become infamous for secretly spying for the Soviets. Unfolding the delicious three-way gamesmanship between America, Britain, and the Soviet Union, and culminating in the gripping cinematic beat-by-beat of Gordievsky's nail-biting escape from Moscow in 1985, Ben Macintyre's latest may be his best yet. Like the greatest novels of John le Carré, it brings readers deep into a world of treachery and betrayal, where the lines bleed between the personal and the professional, and one man's hatred of

communism had the power to change the future of nations.

The Spy Game Georgina Harding 2009-03-31 Years after their German refugee mother disappears on the same day the media releases a story about a spy family, Anna and her brother, Peter, struggle to sort out facts and lies about their mother's identity and wonder if she had a secret life. By the author of The Solitude of Thomas Cave.

Atomic Spy Nancy Thorndike Greenspan 2021-05-11 "Nancy Greenspan dives into the mysteries of the Klaus Fuchs espionage case and emerges with a classic Cold War biography of intrigue and torn loyalties. Atomic Spy is a mesmerizing morality tale, told with fresh sources and empathy." --Kai Bird, author of The Good Spy and coauthor of American Prometheus: The Triumph and Tragedy of J. Robert Oppenheimer The gripping biography of a notorious Cold War villain--the German-born British scientist who handed the Soviets top-secret American plans for the plutonium bomb--showing a man torn between conventional loyalties and a sense of obligation to a greater good. German by birth, British by naturalization, Communist by conviction, Klaus Fuchs was a fearless Nazi resister, a brilliant scientist, and an infamous spy. He was convicted of espionage by Britain in 1950 for handing over the designs of the plutonium bomb to the Russians, and has gone down in history as one of the most dangerous agents in

American and British history. He put an end to America's nuclear hegemony and single-handedly heated up the Cold War. But, was Klaus Fuchs really evil? Using archives long hidden in Germany as well as intimate family correspondence, Nancy Thorndike Greenspan brings into sharp focus the moral and political ambiguity of the times in which Fuchs lived and the ideals with which he struggled. As a university student in Germany, he stood up to Nazi terror without flinching, and joined the Communists largely because they were the only ones resisting the Nazis. After escaping to Britain in 1933, he was arrested as a German émigré--an "enemy alien"--in 1940 and sent to an internment camp in Canada. His mentor at university, renowned physicist Max Born, worked to facilitate his release. After years of struggle and ideological conflict, when Fuchs joined the atomic bomb project, his loyalties were firmly split. He started handing over top secret research to the Soviets in 1941, and continued for years from deep within the Manhattan Project at Los Alamos. Greenspan's insights into his motivations make us realize how he was driven not just by his Communist convictions but seemingly by a dedication to peace, seeking to level the playing field of the world powers. With thrilling detail from never-before-seen sources, *Atomic Spy* travels across the Germany of an ascendant Nazi party; the British university classroom of Max Born; a British internment camp in Canada; the secret

laboratories of Los Alamos; and Eastern Germany at the height of the Cold War. Atomic Spy shows the real Klaus Fuchs--who he was, what he did, why he did it, and how he was caught. His extraordinary life is a cautionary tale about the ambiguity of morality and loyalty, as pertinent today as in the 1940s.

The Bastard Brigade Sam Kean 2019-07-09 From New York Times bestselling author Sam Kean comes the gripping, untold story of a renegade group of scientists and spies determined to keep Adolf Hitler from obtaining the ultimate prize: a nuclear bomb. Scientists have always kept secrets. But rarely have the secrets been as vital as they were during World War II. In the middle of building an atomic bomb, the leaders of the Manhattan Project were alarmed to learn that Nazi Germany was far outpacing the Allies in nuclear weapons research. Hitler, with just a few pounds of uranium, would have the capability to reverse the entire D-Day operation and conquer Europe. So they assembled a rough and motley crew of geniuses -- dubbed the Alsos Mission -- and sent them careening into Axis territory to spy on, sabotage, and even assassinate members of Nazi Germany's feared Uranium Club. The details of the mission rival the finest spy thriller, but what makes this story sing is the incredible cast of characters -- both heroes and rogues alike -- including: Moe Berg, the major league catcher who abandoned the game for a career as a multilingual international spy; the strangest fellow to

ever play professional baseball. Werner Heisenberg, the Nobel Prize-winning physicist credited as the discoverer of quantum mechanics; a key contributor to the Nazi's atomic bomb project and the primary target of the Alsos mission. Colonel Boris Pash, a high school science teacher and veteran of the Russian Revolution who fled the Soviet Union with a deep disdain for Communists and who later led the Alsos mission. Joe Kennedy Jr., the charismatic, thrill-seeking older brother of JFK whose need for adventure led him to volunteer for the most dangerous missions the Navy had to offer. Samuel Goudsmit, a washed-up physics prodigy who spent his life hunting Nazi scientists -- and his parents, who had been swept into a concentration camp -- across the globe. Irène and Frederic Joliot-Curie, a physics Nobel-Prize winning power couple who used their unassuming status as scientists to become active members of the resistance. Thrust into the dark world of international espionage, these scientists and soldiers played a vital and largely untold role in turning back one of the darkest tides in human history.

The Spy's Son Bryan Denson 2015-05-05 The true account of the Nicholsons, the father and son who sold national secrets to Russia. "One of the strangest spy stories in American history" (Robert Lindsey, author of *The Falcon and the Snowman*). Investigative reporter and Pulitzer Prize-finalist Bryan Denson tells the riveting story of the father and son co-conspirators who

betrayed the United States. Jim Nicholson was one of the CIA's top veteran case officers. By day, he taught spycraft at the CIA's clandestine training center, The Farm. By night, he was a minivan-driving single father racing home to have dinner with his kids. But Nicholson led a double life. For more than two years, he had met covertly with agents of Russia's foreign intelligence service and turned over troves of classified documents. In 1997, Nicholson became the highest-ranking CIA officer ever convicted of espionage. But his duplicity didn't stop there. While behind the bars of a federal prison, the former mole systematically groomed the one person he trusted most to serve as his stand-in: his youngest son, Nathan. When asked to smuggle messages out of prison to Russian contacts, Nathan saw an opportunity to be heroic and to make his father proud. "Filled with fascinating details of the cloak-and-dagger techniques of KGB and CIA operatives, double agents, and spy catchers . . . A poignant and painful tale of family love, loyalty, manipulation and betrayal." —The Oregonian

I Am Pilgrim Terry Hayes 2014-12-02 "The astonishing story of one man's breakneck race against time ... and an implacable enemy. An anonymous young woman murdered in a run-down hotel, all identifying characteristics dissolved by acid. A father publicly beheaded in the blistering heat of a Saudi Arabian public square. A notorious Syrian biotech expert found eyeless in a Damascus junkyard. Smoldering human

remains on a remote mountainside in Afghanistan. A flawless plot to commit an appalling crime against humanity. One path links them all, and only one man can make the journey. Pilgrim"--

The Faithful Spy Alex Berenson 2006-04-25 "A well-crafted page-turner that addresses the most important issue of our time. It will keep you reading well into the night."—Vince Flynn A New York Times reporter has drawn upon his experience covering the occupation in Iraq to write the most gripping and chillingly plausible thriller of the post-9/11 era. Alex Berenson's debut novel of suspense, *The Faithful Spy*, is a sharp, explosive story that takes readers inside the war on terror as fiction has never done before. John Wells is the only American CIA agent ever to penetrate al Qaeda. Since before the attacks in 2001, Wells has been hiding in the mountains of Pakistan, biding his time, building his cover. Now, on the orders of Omar Khadri—the malicious mastermind plotting more al Qaeda strikes on America—Wells is coming home. Neither Khadri nor Jennifer Exley, Wells's superior at Langley, knows quite what to expect. For Wells has changed during his years in the mountains. He has become a Muslim. He finds the United States decadent and shallow. Yet he hates al Qaeda and the way it uses Islam to justify its murderous assaults on innocents. He is a man alone, and the CIA—still reeling from its failure to predict 9/11 or find weapons of mass destruction in Iraq—does not know whether to trust him.

Among his handlers at Langley, only Exley believes in him, and even she sometimes wonders. And so the agency freezes Wells out, preferring to rely on high-tech means for gathering intelligence. But as that strategy fails and Khadri moves closer to unleashing the most devastating terrorist attack in history, Wells and Exley must somehow find a way to stop him, with or without the government's consent. From secret American military bases where suspects are held and "interrogated" to basement laboratories where al Qaeda's scientists grow the deadliest of biological weapons, *The Faithful Spy* is a riveting and cautionary tale, as affecting in its personal stories as it is sophisticated in its political details. The first spy thriller to grapple squarely with the complexities and terrors of today's world, this is a uniquely exciting and unnerving novel by an author who truly knows his territory.
