American Catch Paul Greenberg 2015-06-09 INVESTIGATIVE REPORTERS & EDITORS Book Award, Finalist 2014 "A fascinating discussion of a

multifaceted issue and a passionate call to action" --Kirkus From the acclaimed author of *Four Fish* and *The Omega Principle*, Paul Greenberg uncovers the tragic unraveling of the nation's seafood supply—telling the surprising story of why Americans stopped eating from their own waters in *American Catch*. In 2005, the United States imported five billion pounds of seafood, nearly double what we imported twenty years earlier. Bizarrely, during that same period, our seafood exports quadrupled. *American Catch* examines New York oysters, Gulf shrimp, and Alaskan salmon to reveal how it came to be that 91 percent of the seafood Americans eat is foreign. In the 1920s, the average New Yorker ate six hundred local oysters a year. Today, the only edible oysters lie outside city limits. Following the trail of environmental desecration, Greenberg comes to view the New York City oyster as a reminder of what is lost when local waters are not valued as a food source. Farther south, a different catastrophe threatens another seafood-rich environment. When Greenberg visits the Gulf of Mexico, he arrives expecting to learn of the Deepwater Horizon oil spill's lingering effects on shrimpers, but instead finds that the more immediate threat to business comes from overseas. Asian-farmed shrimp—cheap, abundant, and a perfect vehicle for the frying and sauces Americans love—have flooded

the American market. Finally, Greenberg visits Bristol Bay, Alaska, home to the biggest wild sockeye salmon run left in the world. A pristine, productive fishery, Bristol Bay is now at great risk: The proposed Pebble Mine project could under-mine the very spawning grounds that make this great run possible. In his search to discover why this pre-cious renewable resource isn't better protected, Green-berg encounters a shocking truth: the great majority of Alaskan salmon is sent out of the country, much of it to Asia. Sockeye salmon is one of the most nutritionally dense animal proteins on the planet, yet Americans are shipping it abroad. Despite the challenges, hope abounds. In New York, Greenberg connects an oyster restoration project with a vision for how the bivalves might save the city from rising tides. In the Gulf, shrimpers band together to offer local catch direct to consumers. And in Bristol Bay, fishermen, environmentalists, and local Alaskans gather to roadblock Pebble Mine. With American Catch, Paul Greenberg proposes a way to break the current destructive patterns of consumption and return American catch back to American eaters.

Bristol House Beverly Swerling 2013-04-04 In the tradition of Kate Mosse, a swiftly-paced mystery that stretches from modern London to Tudor England In modern-day London, architectural historian and recovering alcoholic Annie Kendall hopes to turn her life around and restart her career by locating several long-missing pieces of ancient Judaica. Geoff Harris, an investigative reporter, is soon drawn into her quest, both by romantic interest and suspicions about the head of the Shalom Foundation, the organization sponsoring her work. He's also a dead ringer for the ghost of a monk Annie believes she has seen at the flat she is subletting in Bristol House. In 1535, Tudor London is a very different city, one in which monks are being executed by Henry VIII and Jews are banished. In this treacherous environment of religious persecution, Dom Justin, a Carthusian monk, and a goldsmith known as the Jew of Holborn must

navigate a shadowy world of intrigue involving Thomas Cromwell, Jewish treasure, and sexual secrets. Their struggles shed light on the mysteries Annie and Geoff aim to puzzle out—at their own peril. This riveting dual-period narrative seamlessly blends a haunting supernatural thriller with vivid historical fiction. Beverly Swerling, widely acclaimed for her City of Dreams series, delivers a bewitching and epic story of a historian and a monk, half a millennium apart, whose destinies are on a collision course.

The Journals of Captain James Cook on his Voyages of Discovery J.C.

Beaglehole 2017-07-05 Captain James Cook's first two voyages of exploration, in 1768-71 and 1772-75, had drawn the modern map of the South Pacific Ocean and had opened the door on the discovery of Antarctica. These expeditions were the subject of Volumes I and II of Dr J.C. Beaglehole's edition of Cook's Journals. The third voyage, on which Cook sailed in 1776, was directed to the Northern Hemisphere. Its objective was the discovery of 'a Northern Passage by sea from the Pacific to the Atlantic Ocean' - the Northwest Passage, sought since the 16th century, which would have transformed the pattern of world trade. The search was to take Cook into high latitudes

where, as in the Antarctic, his skill in ice navigation was tested. Sailing north from Tahiti in 1778, Cook made the first recorded discovery of the Hawaiian Islands. On March 7 he sighted the Oregon coast in 44° N. The remarkable voyage which he made northward along the Canadian and Alaskan coasts and through Bering Strait to his farthest north in 70° nearly disproved the existence of a navigable passage towards the Atlantic and produced charts of impressive accuracy. Returning to Hawaii to refit, Cook met his death in a clash with the natives as tragic as it seems unnecessary. Dr Beaglehole discusses, with sympathy and insight, the tensions which led Cook, by then a tired man, into miscalculations alien to his own nature and habits. The volume and vitality of the records, both textual and graphic, for this voyage surpass those even for Cook's second voyage. The surgeons William Anderson and David Samwell, both admirable observers, left journals which are also here printed in full for the first time. The documentation is completed, as in the previous volumes, by appendixes of documents and correspondence and by reproductions of original drawings and paintings mainly by John Webber, the artist of the expedition. In Dr Beaglehole's words, 'no one can study attentively the

records of Cook's third, and last, v

Imperial Intimacies Hazel V. Carby 2019-09-24 Winner of the British

Academy's Nayef Al-Rodhan Prize for Global Cultural Understanding 2020
Highly commended for PEN Hessell-Tiltman Prize 2020 A haunting and evocative history of British empire, told through one woman's family story "Where are you from?" was the question hounding Hazel Carby as a girl in post-war London. One of the so-called brown babies of the Windrush generation, born to a Jamaican father and Welsh mother, Carby's place in her home, her neighbourhood, and her country of birth was always in doubt. Emerging from this setting, Carby untangles the threads connecting members of her family in a web woven by the British Empire across the Atlantic. We meet Carby's working-class grandmother Beatrice, a seamstress challenged by poverty and disease. In England, she was thrilled by the cosmopolitan fantasies of empire, by cities built with slave-trade profits, and by street peddlers selling fashionable Jamaican delicacies. In Jamaica, we follow the lives of both the "white Carbys" and the "black Carbys," including Mary Ivey, a free woman of colour, whose children are fathered by Lilly Carby, a British soldier who arrived in Jamaica in 1789 to be absorbed into the plantation aristocracy. And we discover the hidden stories of Bridget and Nancy, two women owned by Lilly who survived the Middle Passage from Africa to the

Caribbean. Moving between Jamaican plantations, the hills of Devon, the port cities of Bristol, Cardiff, and Kingston, and the working-class estates of South London, Carby's family story is at once an intimate personal history and a sweeping summation of the violent entanglement of two islands. In charting British empire's interweaving of capital and bodies, public language and private feeling, Carby will find herself reckoning with what she can tell, what she can remember, and what she can bear to know.

Evvie Drake Starts Over Linda Holmes (Radio talk show host) 2019 "In a small town in Maine, recently widowed Eveleth "Evvie" Drake rarely leaves her

house. Everyone in town, including her best friend, Andy, thinks grief keeps her locked inside, and she doesn't correct them. In New York, Dean Tenney, former major-league pitcher and Andy's childhood friend, is struggling with a case of the "yips": he can't throw straight anymore, and he can't figure out why. An invitation from Andy to stay in Maine for a few months seems like the perfect chance to hit the reset button. When Dean moves into an apartment at the back of Evvie's house, the two make a deal: Dean won't ask about Evvie's late husband, and Evvie won't ask about Dean's baseball career. Rules, though, have a funny way of being broken--and what starts as an unexpected friendship soon turns into something more. But before they can find out what might lie ahead, they'll have to wrestle a few demons: the bonds they've broken, the plans they've changed, and the secrets they've kept. They'll need a lot of help, but in life, as in baseball, there's always a chance--right up until the last out"--
