Just Courage Gary A. Haugen 2016-09-16 If you've ever felt like your life is too safe and comfortable and easy, there's a reason you're not satisfied--we're created by God for adventure. In this book International Justice Mission president Gary Haugen shows how engaging in

the fight for justice is the most deeply satisfying way of life. Terrorism in Perspective Sue Mahan 2012-11-21 The Third Edition of Terrorism in Perspective, like its two successful predecessors, takes a broad-based approach that emphasizes the historical, cultural, political, religious, social, and economic factors that underlie an understanding of both global and domestic terrorism. This unique text-reader combines original essays with the best of the existing literature on terrorism. Each chapter of this text begins with an overview essay written by the authors, followed by two relevant and engaging articles culled from a wide variety of popular, academic, and governmental sources. This is the only major terrorism text to incorporate readings from top terrorism experts into a traditional textbook format, allowing readers to deepen their understanding of each aspect of terrorism.

Burkina Faso: Poverty Reduction Strategy Paper - Annual Progress Report Joint Staff Advisory Note International Monetary Fund 2008-07-02 This annual progress report reviews the joint staff advisory note on Burkina Faso's Poverty Reduction Strategy Papers (PRSPs). IMF staff highlights the importance of increasing public revenue mobilization and strengthening expenditure management and efficiency, and securing financing in the form of grants, which would create space for an increase in pro-poor spending. Increasing spending on basic services and enhancing the management and efficiency of public expenditure in health and education, and continued progress on decentralization are critical to achieve the PRS public service delivery targets.

Public Policy Sara R. Rinfret 2018-06-21 Public Policy: A

Concise Introduction, by Sara R. Rinfret, Denise Scheberle, and Michelle C. Pautz, is a student-friendly primer that quickly connects readers to the inner workings of public policy. The text condenses early chapters on theory and the policy-making process, allowing students to take up key policy challenges—such as immigration, education, and health care—much earlier in the semester. Structured chapter layouts of substantive policy areas allow instructors to supplement with their own examples seamlessly. The book's emphasis on policy choices asks students to look beyond simple pros and cons to examine the multifaceted dimensions of decision making and the complexities inherent in real-world problem solving. Not every student starts out engaged in public policy, so place your students—both majors and non-majors alike—in the driver's seat by fostering their analytical skills early, and spend the rest of the semester discussing policy issues, examining data, and debating current policy examples that matter most to them.

The Neurobiology of an Insect Brain Malcolm Burrows 1996 This book reviews recent advances in insect neurobiology. By concentrating largely on one insect, the locust, this book unravels the mechanisms by which a brain integrates the vast array of sensory information to generate movement and behavior.

Micronesian Blues Bryan Vila 2017-10-21 His plane nearly crashed, the cops he'd been hired to train almost killed him, and he ingested a substance that bore a close resemblance to elephant snot - all during his first two days on the job. Micronesian Blues tells the true story of former L.A. street cop Bryan Vila's hilarious road to cross-cultural

enlightenment as a police chief in the far Pacific islands of Micronesia. Through lively narrative laced with wry humor, it chronicles his adventures and misadventures on Saipan, Ponape (now Pohnpei), Truk (now Chuuk), Palau, Yap, Kosrae, and Kwajalein. Trial and error was the name of the game in this dubious paradise, where Bryan had to learn the rules - or make them up - as he went. Yet he embraced island life, succeeded in his new role, and ultimately found himself profoundly changed by his experiences in Micronesia and the lessons he learned there.

Generous Justice Timothy Keller 2010-11-02 Renowned pastor and bestselling author of *The Prodigal Prophet* Timothy Keller shares his most provocative and illuminating message yet. It is commonly thought in secular society that the Bible is one of the greatest hindrances to doing justice. Isn't it full of regressive views? Didn't it condone slavery? Why look to the Bible for guidance on how to have a more just society? But Timothy Keller challenges these preconceived beliefs and presents the Bible as a fundamental source for promoting justice and compassion for those in need. In *Generous Justice*, he explores a life of justice empowered by an experience of grace: a generous, gracious justice. This book offers readers a new understanding of modern justice and human rights that will resonate with both the faithful and the skeptical.

Producing Nature and Poverty in Africa Vigdis Broch-Due 2000 Drawing on case studies from eight different countries, the contributors to this provocative collection of essays demonstrate quite clearly that environmental

programmes often have direct and far-reaching consequences for the distribution of wealth and poverty and that they constitute one of the major forms of foreign and state intervention in contemporary African affairs.

Year of the Locust Salim Tamari 2015-08-18 Year of the Locust captures in page-turning detail the end of the Ottoman world and a pivotal moment in Palestinian history. In the diaries of Ihsan Hasan al-Turjman (1893–1917), the first ordinary recruit to describe World War I from the Arab side, we follow the misadventures of an Ottoman soldier stationed in Jerusalem. There he occupied himself by dreaming about his future and using family connections to avoid being sent to the Suez. His diaries draw a unique picture of daily life in the besieged city, bringing into sharp focus its communitarian alleys and obliterated neighborhoods, the ongoing political debates, and, most vividly, the voices from its streets—soldiers, peddlers, prostitutes, and vagabonds. Salim Tamari's indispensable introduction places the diary in its local, regional, and imperial contexts while deftly revising conventional wisdom on the disintegration of the Ottoman Empire.

Gender Aspects of the Trade and Poverty Nexus Maurizio Bussolo 2009-04-09 Trade liberalization can create economic opportunities for poor people. But are these opportunities available to men and women equally? Do the gender disparities in access to education, health, credit, and other resources limit the gains from trade and the potential benefits to poor women? This volume introduces the gender dimension into empirical analyses of the links between trade and poverty, which can improve

policy making. The collection of chapters in this book is close to an ideal macro-micro evaluation technique that explicitly assesses the importance of gender in determining the poverty effects of trade shocks. Part I, relying on ex ante simulation approaches, focuses on the macroeconomic links between trade and gender, where labor market structure and its functioning play a key role. Part II concentrates on micro models of households and attempts to identify the ex post effects of trade shocks on household income levels and consumption choices. It also addresses questions about possible changes in inequality within households due to improved economic opportunities for women. 'Gender Aspects of the Trade and Poverty Nexus' will be invaluable to policy makers, development practitioners and researchers, journalists, and students.

When Helping Hurts Steve Corbett 2014-01-24 With more than 300,000 copies in print, When Helping Hurts is a paradigm-forming contemporary classic on the subject of poverty alleviation. Poverty is much more than simply a lack of material resources, and it takes much more than donations and handouts to solve it. When Helping Hurts shows how some alleviation efforts, failing to consider the complexities of poverty, have actually (and unintentionally) done more harm than good. But it looks ahead. It encourages us to see the dignity in everyone, to empower the materially poor, and to know that we are all uniquely needy—and that God in the gospel is reconciling all things to himself. Focusing on both North American and Majority World contexts, When Helping Hurts

provides proven strategies for effective poverty alleviation, catalyzing the idea that sustainable change comes not from the outside in, but from the inside out.

Handbook of Global Media Ethics Stephen J.A. Ward

2021-09-02 This handbook is one of the first

comprehensive research and teaching tools for the developing area of global media ethics. The advent of new media that is global in reach and impact has created the need for a journalism ethics that is global in principles and aims. For many scholars, teachers and journalists, the existing journalism ethics, e.g. existing codes of ethics, is too parochial and national. It fails to provide adequate normative guidance for a media that is digital, global and practiced by professional and citizen. A global media ethics is being constructed to define what responsible public journalism means for a new global media era. Currently, scholars write texts and codes for global media, teach global media ethics, analyse how global issues should be covered, and gather together at conferences, round tables and meetings. However, the field lacks an authoritative handbook that presents the views of leading thinkers on the most important issues for global media ethics. This handbook is a milestone in the field, and a major contribution to media ethics.

The Locust Effect Gary A. Haugen 2015-03-17 An urgent call-to-action in support of ending violence against the

world's poor reveals how in addition to hunger and disease, impoverished populations have become increasingly subject to assault, forced labor and other physical abuses, outlining recommendations for implementing workable solutions and overcoming corruption.

Chasing Chaos Jessica Alexander 2013 An experienced humanitarian worker who has helped the refugees in Rwanda, Sierra Leone, Darfur and Haiti gives an insider's view of the chaos and danger involved in such a pursuit, as well as the often-wild social lives that some workers lead to deal with the stress. Original.

Cross-Cultural Partnerships Mary T. Lederleitner 2010-02-23 Cross-cultural specialist Mary Lederleitner brings missiological and financial expertise to explain how global mission efforts can be funded with integrity, mutuality and transparency. Bringing together social science research, biblical principles and on-the-ground examples, she presents best practices for handling funding and finance.

Edible Insects Arnold van Huis 2013 Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. Edible insects are a promising alternative to the conventional production of meat, either

for direct human consumption or for indirect use as feedstock. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

Mediation: The Roles of Advocate and Neutral, Fourth Edition, integrates mediation skills and strategies with theory, ethics, and practice applications to teach students about legal mediation and how to represent clients effectively in the process. This book reflects the experience of its authors, who are both professors and practicing legal mediators with decades of experience teaching and resolving cases. It includes all the coverage of mediation found in Resolving Disputes, the survey text, as well as material on negotiation and hybrid processes and additional coverage of mediation. Most important, this book has become a fully video-integrated text. As they read students are referred to 65 unique video excerpts, embedded in the text and instantly accessible, which show leading mediators applying specific techniques and strategies to overcome barriers to settlement. New to the Fourth Edition Video: Unique and diverse video excerpts, created expressly for this book and embedded in the text, featuring mediators from the U.S. and around the world.

Virtual mediation: Analysis of the special aspects of mediating via Zoom, based on the experiences of professional mediators. Grief and loss: New material probing deeply into the psychology of loss and how it affects settlement decisions. ODR: New readings on online mediation. International: Perspectives and video of international practitioners, based on the authors' experience training mediators on five continents. Professors and student will benefit from: Concise content that supports an active experiential class, without sacrificing the deeper knowledge expected in a law school course. An informal writing style that presents actual case examples, practical advice, and thought-provoking questions written for students who will soon become lawyers, representing clients in mediating disputes. A practice-based approach that helps students apply concepts, including realistic roleplays that facilitate classroom discussion. Examples of lawyers taking on roles as informal mediators, giving students models of how to apply mediative skills immediately in their practice.

Farming Systems and Poverty John A. Dixon 2001 A joint FAO and World Bank study which shows how the farming systems approach can be used to identify priorities for the reduction of hunger and poverty in the main farming systems of the six major developing regions of the world.

Improved Animal Health for Poverty Reduction and Sustainable Livelihoods Food and Agriculture Organization of the United Nations. Animal Production and Health Division 2002 This manual is one of the outcomes of the 1996 World Food Summit resolutions on the need to achieve global food security. It examines the

serious problems of animal diseases and veterinary public health. Based on practical experience worldwide, particularly in developing countries, it looks at ways of reducing poverty and creating sustainable livelihoods among rural populations by improving the health of livestock. Aspects considered include: national animal health policies and delivery systems; training of personnel; the importance of raising public awareness; and the need for global response strategies to support national and local initiatives.

Moving Out of Poverty Deepa Narayan 2009-12-09 There is no peace with hunger. Only promises and promises and no fulfillment. If there is no job, there is no peace. If there is nothing to cook in the pot, there is no peace. - Oscar, a 57-year-old man, El Gorri n, Colombia They want to construct their houses near the road, and they cannot do that if they do not have peace with their enemies. So peace and the road have developed a symbiotic relation. One cannot live without the other. . . . - A community leader from a conflict-affected community on the island of Mindanao, Philippines Most conflict studies focus on the national level, but this volume focuses on the community level. It explores how communities experience and recover from violent conflict, and the surprising opportunities that can emerge for poor people to move out of poverty in these harsh contexts. 'Rising from the Ashes of Conflict' reveals how poor people s mobility is shaped by local democracy, people s associations, aid strategies, and the local economic environment in over 100 communities in seven conflict-affected countries, including Afghanistan. The findings suggest the need to rethink

postconflict development assistance. This is the fourth volume in a series derived from the Moving Out of Poverty study, which explores mobility from the perspectives of poor people in more than 500 communities across 15 countries.

Alleviating World Suffering Ronald E. Anderson 2017-03-01 This is the first volume on the subject of the alleviation of world suffering. At the same time it is also the first book framing the fields of global socio-economic development, world health, human rights, peace studies, sustainability, and poverty within the challenge of alleviating suffering and improving quality of life. Both international studies and global development have become specialized and fragmented, whereas this work assembles all of these development fragments together in order to determine whether common ground exists to make headway in reducing global suffering. Leading experts in these various fields of development and suffering have been recruited worldwide to give scholarly assessments of the major human problems and how they can be successfully tackled.

Locust Jeffrey A. Lockwood 2009-04-28 Throughout the nineteenth century, swarms of locusts regularly swept across the continent, turning noon into dusk, demolishing farm communities, and bringing trains to a halt as the crushed bodies of insects greased the rails. In 1876, the U.S. Congress declared the locust "the single greatest impediment to the settlement of the country." From the Dakotas to Texas, from California to Iowa, the swarms pushed thousands of settlers to the brink of starvation, prompting the federal government to enlist some of the

greatest scientific minds of the day and thereby jumpstarting the fledgling science of entomology. Over the next few decades, the Rocky Mountain locust suddenly -- and mysteriously -- vanished. A century later, Jeffrey Lockwood set out to discover why. Unconvinced by the reigning theories, he searched for new evidence in musty books, crumbling maps, and crevassed glaciers, eventually piecing together the elusive answer: A group of early settlers unwittingly destroyed the locust's sanctuaries just as the insect was experiencing a natural population crash. Drawing on historical accounts and modern science, *Locust* brings to life the cultural, economic, and political forces at work in America in the late-nineteenth century, even as it solves one of the greatest ecological mysteries of our time.

*The End of Corruption and Impunity* Stuart S. Yeh 2022

"*The End of Corruption and Impunity* argues that it is feasible to limit the corruption that plagues developing regions of the world by implementing an international treaty designed to combat dysfunctional criminal justice systems and restore human rights"--

*Good News About Injustice* Gary A. Haugen 2021-10-26

Now part of the IVP Signature Collection, this landmark work from Gary Haugen offers stories of courageous Christians who stood up for justice in the face of human trafficking, forced prostitution, racial and religious persecution, and torture. Throughout he provides concrete guidance on how ordinary Christians can rise up to seek justice throughout the world.

*Serving God Globally* Roland Hoksbergen 2012-06-01

Dominating the daily news cycle today are the grim

realities of grinding poverty, sex trafficking, gender discrimination, child soldiering, HIV/AIDS, failed states, corruption, and environmental breakdown. In the midst of such pain and brokenness, the followers of Christ cannot stand idly by, for God calls them into the mission of reconciling all things, first by easing suffering and then by building flourishing communities through the process of transformational human development. This practical handbook explains what development is, what development workers actually do, and how young people can prepare for mission careers in this field, both in North America and abroad. In addition to setting the big picture for how Christians approach the big questions of international development, the book draws on stories, advice, and wisdom collected from personal interviews with about fifty development professionals.

Terrify No More Gary Haugen 2010-06-14 “If you’re tired of living an anemic life and you want to live courageously, get this book. Terrify No More is a suspenseful read that will introduce you to the new heroes of the faith—people who are willing to take risks to bring hope and freedom to those who need it most.” — Rick Warren, Author, The Purpose Driven Life Senior Pastor, Saddleback Church “...Producer Richard Greenberg showed me some truly alarming videotape he’d obtained from a human rights group called the International Justice Mission... That tape would trigger one of the most extensive international searches I’d ever been involved with as a Dateline Correspondent.” —Chris Hansen, NBC News Correspondent “Now we have a gripping, close-up account of how IJM carries out its mission in Cambodia.

Gary Haugen's book should awaken many to what goes on in the 21st century slave trade." — Ambassador John R. Miller, Director, Office to Monitor and Combat Trafficking in Persons

Out of shocking depravity emerges a story of hope. In a small village outside Phnom Penh, children as young as five are bought and sold as sex slaves. Day after day their abuse continues, and their hope slips away. In *Terrify No More* an international team of investigators goes undercover to infiltrate this ring of brothels and gather evidence needed to free these girls. Meanwhile, skilled legal minds race the clock, working at the highest levels of U.S. and foreign governments to bring the perpetrators to justice. Headed up by former U.N. war-crimes investigator, Gary Haugen, the team perseveres against impossible obstacles—police corruption, death threats, and mission-thwarting tip-offs—in a mission focused on bringing freedom to the victims.

Poverty and Shared Prosperity 2020 World Bank 2020-12-23 This edition of the biennial Poverty and Shared Prosperity report brings sobering news. The COVID-19 (coronavirus) pandemic and its associated economic crisis, compounded by the effects of armed conflict and climate change, are reversing hard-won gains in poverty reduction and shared prosperity. The fight to end poverty has suffered its worst setback in decades after more than 20 years of progress. The goal of ending extreme poverty by 2030, already at risk before the pandemic, is now beyond reach in the absence of swift, significant, and sustained action, and the objective of advancing shared prosperity—raising the incomes of the poorest 40 percent

in each country—will be much more difficult. Poverty and Shared Prosperity 2020: Reversals of Fortune presents new estimates of COVID-19's impacts on global poverty and shared prosperity. Harnessing fresh data from frontline surveys and economic simulations, it shows that pandemic-related job losses and deprivation worldwide are hitting already poor and vulnerable people hard, while also shifting the profile of global poverty to include millions of 'new poor.' Original analysis included in the report shows that the new poor are more urban, better educated, and less likely to work in agriculture than those living in extreme poverty before COVID-19. It also gives new estimates of the impact of conflict and climate change, and how they overlap. These results are important for targeting policies to safeguard lives and livelihoods. It shows how some countries are acting to reverse the crisis, protect those most vulnerable, and promote a resilient recovery. These findings call for urgent action. If the global response fails the world's poorest and most vulnerable people now, the losses they have experienced to date will be minimal compared with what lies ahead. Success over the long term will require much more than stopping COVID-19. As efforts to curb the disease and its economic fallout intensify, the interrupted development agenda in low- and middle-income countries must be put back on track. Recovering from today's reversals of fortune requires tackling the economic crisis unleashed by COVID-19 with a commitment proportional to the crisis itself. In doing so, countries can also plant the seeds for dealing with the long-term development challenges of promoting inclusive growth, capital accumulation, and risk

prevention—particularly the risks of conflict and climate change.

COVID-19 in the Global South Carmody, Pádraig 2020-10-21 Available Open Access under CC-BY-NC-ND licence.

Bringing together a range of experts across various sectors, this important volume explores some of the key issues that have arisen in the Global South with the COVID-19 pandemic. Situating the worldwide health crisis within broader processes of globalisation, the book investigates implications for development and gender, as well as the effects on migration, climate change and economic inequality. Contributors consider how widespread and long-lasting responses to the pandemic should be, while paying particular attention to the accentuated risks faced by vulnerable populations. Providing answers that will be essential to development practitioners and policy makers, the book offers vital insights into how the impact of COVID-19 can be mitigated in some of the most challenging socio-economic contexts worldwide.

Research Methods, Statistics, and Applications Kathryn A. Adams 2022-01-07 The third edition of Research Methods, Statistics, and Applications by Kathryn A. Adams and Eva K. McGuire consistently integrates the interrelated concepts of research methods and statistics to better explain how the research process requires a combination of these two elements. This best-selling combined text includes numerous examples and practical applications from the latest research across the social and behavioral sciences. The conversational tone and emphasis on decision-making engages students in the

research process and demonstrates the value of rigorous research in academic settings and beyond. The end goal of this book is to spark students' interest in conducting research and to increase their ability to critically analyze research in their daily lives. The third edition includes a new chapter on measurement to better highlight the critical importance of this topic, updates for the 7th edition of the Publication Manual of the American Psychological Association, new examples related to social justice, a new section on case studies, and more thorough integration of research ethics information and tips throughout each chapter.

The State of Food Security and Nutrition in the World 2021  
Food and Agriculture Organization of the United Nations  
2021-07-12 In recent years, several major drivers have put the world off track to ending world hunger and malnutrition in all its forms by 2030. The challenges have grown with the COVID-19 pandemic and related containment measures. This report presents the first global assessment of food insecurity and malnutrition for 2020 and offers some indication of what hunger might look like by 2030 in a scenario further complicated by the enduring effects of the COVID-19 pandemic. It also includes new estimates of the cost and affordability of healthy diets, which provide an important link between the food security and nutrition indicators and the analysis of their trends. Altogether, the report highlights the need for a deeper reflection on how to better address the global food security and nutrition situation. To understand how hunger and malnutrition have reached these critical levels, this report draws on the analyses of the past four

editions, which have produced a vast, evidence-based body of knowledge of the major drivers behind the recent changes in food security and nutrition. These drivers, which are increasing in frequency and intensity, include conflicts, climate variability and extremes, and economic slowdowns and downturns – all exacerbated by the underlying causes of poverty and very high and persistent levels of inequality. In addition, millions of people around the world suffer from food insecurity and different forms of malnutrition because they cannot afford the cost of healthy diets. From a synthesized understanding of this knowledge, updates and additional analyses are generated to create a holistic view of the combined effects of these drivers, both on each other and on food systems, and how they negatively affect food security and nutrition around the world. In turn, the evidence informs an in-depth look at how to move from silo solutions to integrated food systems solutions. In this regard, the report proposes transformative pathways that specifically address the challenges posed by the major drivers, also highlighting the types of policy and investment portfolios required to transform food systems for food security, improved nutrition, and affordable healthy diets for all. The report observes that, while the pandemic has caused major setbacks, there is much to be learned from the vulnerabilities and inequalities it has laid bare. If taken to heart, these new insights and wisdom can help get the world back on track towards the goal of ending hunger, food insecurity, and malnutrition in all its forms.

Seeking Peace Johann Christoph Arnold 2013 For anyone sick of the spiritual soup filling so many bookstore

shelves these days, Seeking Peace is sure to satisfy a deep hunger. Arnold offers no easy solutions, but also no unrealistic promises. He spells out what peace demands. There is a peace greater than self-fulfillment, he writes. But you won't find it if you go looking for it. It is waiting for everyone ready to sacrifice the search for individual peace, everyone ready to die to self.

The Book of Lost and Found Lucy Foley 2015-08-25 From London to Corsica to Paris -- as a young woman pursues the truth about her late mother, two captivating love stories unfurl in this captivating novel from the author of The Guest List. Kate Darling's enigmatic mother -- a once-famous ballerina -- has passed away, leaving Kate bereft. When her grandmother falls ill and bequeaths to Kate a small portrait of a woman who bears a striking resemblance to Kate's mother, Kate uncovers a mystery that may upend everything she thought she knew. Kate's journey to find the true identity of the woman in the portrait takes her to some of the world's most iconic and indulgent locales, revealing a love story that began in the wild 1920s and was disrupted by war and could now spark new love for Kate. Alternating between Kate's present-day hunt and voices from the past, The Book of Lost and Found casts light on family secrets and love -- both lost and found.

The impact of disasters and crises on agriculture and food security: 2021 Food and Agriculture Organization of the United Nations 2021-03-17 On top of a decade of exacerbated disaster loss, exceptional global heat, retreating ice and rising sea levels, humanity and our food security face a range of new and unprecedented hazards,

such as megafires, extreme weather events, desert locust swarms of magnitudes previously unseen, and the COVID-19 pandemic. Agriculture underpins the livelihoods of over 2.5 billion people – most of them in low-income developing countries – and remains a key driver of development. At no other point in history has agriculture been faced with such an array of familiar and unfamiliar risks, interacting in a hyperconnected world and a precipitously changing landscape. And agriculture continues to absorb a disproportionate share of the damage and loss wrought by disasters. Their growing frequency and intensity, along with the systemic nature of risk, are upending people's lives, devastating livelihoods, and jeopardizing our entire food system. This report makes a powerful case for investing in resilience and disaster risk reduction – especially data gathering and analysis for evidence informed action – to ensure agriculture's crucial role in achieving the future we want.

Pandemic! 2 Slavoj Žižek 2021-01-11 What do sex doll sales, locust swarms and a wired-brain pig have to do with the coronavirus pandemic? Everything--according to that "Giant of Lubiana," the inimitable Slovenian philosopher Slavoj Žižek. In this exhilarating sequel to his acclaimed *Pandemic!: COVID-19 Shakes the World*, Žižek delves into some of the more surprising dimensions of lockdowns, quarantines, and social distancing--and the increasingly unruly opposition to them by "response fatigued" publics around the world. Žižek examines the ripple effects on the food supply of harvest failures caused by labor shortages and the hyper-exploitation of the global class of care workers, without whose labor daily

life would be impossible. Through such examples he pinpoints the inability of contemporary capitalism to safeguard effectively the public in times of crisis. Writing with characteristic daring and zeal, ?i?ek ranges across critical theory, pop-culture, and psychoanalysis to reveal the troubling dynamics of knowledge and power emerging in these viral times.

Rural Poverty, Risk and Development Marcel Fafchamps 1999 All men and women are subject to risk: illness, accident, death. Some shocks affect their ability to feed and support themselves properly, either temporarily: unemployment, crop failure, and loss of property; or permanently: disability, and skill obsolescence. This report summarises what is known and also what is not known about the sources of risk faced by the rural poor and their coping strategies. It examines the impact of risk and risk-coping strategies on development and the way in which governments and international organisations can assist in dealing with risk and overcoming poverty.

Economic Gangsters Ray Fisman 2010-01-04 Meet the economic gangster. He's the United Nations diplomat who double-parks his Mercedes on New York City streets at rush hour because the cops can't touch him--he has diplomatic immunity. He's the Chinese smuggler who dodges tariffs by magically transforming frozen chickens into frozen turkeys. The dictator, the warlord, the unscrupulous bureaucrat who bilks the developing world of billions in aid. The calculating crook who views stealing and murder as just another part of his business strategy. And, in the wrong set of circumstances, he might just be you. In Economic Gangsters, Raymond Fisman and

Edward Miguel take readers into the secretive, chaotic, and brutal worlds inhabited by these lawless and violent thugs. Join these two sleuthing economists as they follow the foreign aid money trail into the grasping hands of corrupt governments and shady underworld characters. Spend time with ingenious black marketeers as they game the international system. Follow the steep rise and fall of stock prices of companies with unseemly connections to Indonesia's former dictator. See for yourself what rainfall has to do with witch killings in Tanzania--and more. Fisman and Miguel use economics to get inside the heads of these "gangsters," and propose solutions that can make a difference to the world's poor--including cash infusions to defuse violence in times of drought, and steering the World Bank away from aid programs most susceptible to corruption. In a new postscript, the authors look at how economists might use new tools to better understand, and fight back against, corruption and violence in the aftermath of the 2008 financial crisis. Take an entertaining walk on the dark side of global economic development with *Economic Gangsters*.

Misjustice Helena Kennedy 2019-09-05 Two women a week are killed by a spouse or partner. Every seven minutes a woman is raped. Now is the time for change. 'Fascinating and chilling' Caroline Criado Perez, bestselling author of *Invisible Women* Helena Kennedy, one of our most eminent lawyers and defenders of human rights, examines the pressing new evidence that women are being discriminated against when it comes to the law. From the shocking lack of female judges to the scandal of

female prisons and the double discrimination experienced by BAME women, Kennedy shows with force and fury that change for women must start at the heart of what makes society just. 'An unflinching look at women in the justice system... an important book because it challenges acquiescence to everyday sexism and inspires change'
