The Titans John Jakes 2012-07-10 The Kent family faces internal clashes as the Civil War ignites—from the #1 New York Times—bestselling author of North and South. In the hellish years of the Civil War, the Kent family faces its greatest trials yet. Louis, the devious son of the late Amanda Kent, is in control of the dynasty—and of its seemingly inevitable collapse. His cousin Jephtha Kent, meanwhile, backs the abolitionist cause, while his sons remain devoted Southerners. As the country fractures around the Kents, John Jakes introduces characters that include some of the most famous Americans of this defining era. Spanning the full breadth of the Civil War—from the brutal frontlines in the South to the political tangle in Washington—The Titans chronicles two struggles for identity: the country's and the Kents'. This ebook features an illustrated biography of John Jakes including rare images from the author's personal collection.

Ill Winds Larry Diamond 2020-04-14 \*Shortlisted for the 2020 Arthur Ross Book Award\* From America's leading scholar of democracy, a personal, passionate call to action against the rising authoritarianism that challenges our world order—and the very value of liberty Larry Diamond has made it his life's work to secure democracy's future by understanding its past and by advising dissidents fighting autocracy around the world. Deeply attuned to the cycles of democratic expansion and decay that determine the fates of nations, he watched with mounting unease as illiberal rulers rose in Hungary, Poland, Turkey, the Philippines, and beyond, while China and Russia grew increasingly bold and bullying. Then, with Trump's election at home, the global retreat from freedom spread from democracy's margins to its heart. Ill Winds' core argument is stark: the defense and advancement of democratic ideals relies on U.S. global leadership. If we do not reclaim our traditional place as the keystone of democracy, today's authoritarian swell could become a tsunami, providing an opening for Vladimir Putin, Xi Jinping, and their admirers to turn the twenty-first century into a dark time of despotism. We are at a hinge in history, between a new era of tyranny and an age of democratic renewal. Free governments can defend their values; free citizens can exercise their rights. We can make the internet safe for liberal democracy, exploit the soft, kleptocratic underbelly of dictatorships, and revive America's degraded democracy. Ill Winds offers concrete, deeply informed suggestions to fight polarization, reduce the influence of money in politics, and make every vote count. In 2020, freedom's last line of defense still remains "We the people."

The Village Blacksmith Henry Wadsworth Longfellow 2020-05-12 A contemporary envisioning of a nineteenth-century poem pairs artwork by G. Brian Karas with the Henry Wadsworth Longfellow classic. His brow is wet with honest sweat; He earns whate'er he can, And looks the whole world in the face, For he owes not any man. The neighborhood blacksmith is a quiet and unassuming presence, tucked in his smithy under the chestnut tree. Sturdy, generous, and with sadness of his own, he toils through the day, passing on the tools of his trade, and come evening, takes a well-deserved rest. Longfellow's timeless poem is enhanced by G. Brian Karas's thoughtful and contemporary art in this modern retelling of the tender tale of a humble craftsman. An afterword about the tools and the trade of blacksmithing will draw readers curious about this age-honored endeavor, which has seen renewed interest in developed countries and continues to be plied around the world.

Don't Stop the Carnival Herman Wouk 2013-12-05 It's everyone's dream: to leave behind the rat-race of the working world and start life all over again amidst the cool breezes, sun-drenched colours, and rum-laced drinks of a tropical paradise. This is the story of Norman Paperman, a New York City press agent who, facing the onset of middle age, runs away to a Caribbean island to reinvent himself as a hotel keeper. Pulitzer Prize-winning author Herman Wouk, who himself lived on an island in the sun for seven years, draws on his own experiences to tell a story at once brilliantly comic and deeply moving about a man's search for happiness, and for himself.

The Autobiography of Miss Jane Pittman Ernest J. Gaines 2012-10-24 "This is a novel in the guise of the tape-recorded recollections of a black woman who has lived 110 years, who has been both a slave and a witness to the black militancy of the 1960's. In this woman Ernest Gaines has created a legendary figure, a woman equipped to stand beside William Faulkner's Dilsey in *The Sound And The Fury*." Miss Jane Pittman, like Dilsey, has 'endured,' has seen almost everything and foretold the rest. Gaines' novel brings to mind other great works *The Odyssey* for the way his heroine's travels manage to summarize the American history of her race, and *Huckleberry Finn*

for the clarity of her voice, for her rare capacity to sort through the mess of years and things to find the one true story in it all." -- Geoffrey Wolff, Newsweek. "Stunning. I know of no black novel about the South that excludes quite the same refreshing mix of wit and wrath, imagination and indignation, misery and poetry. And I can recall no more memorable female character in Southern fiction since Lena of Faulkner's *Light In August* than Miss Jane Pittman." -- Josh Greenfeld, Life

*Hitler at Home* Despina Stratigakos 2015-09-29 A look at Adolf Hitler's residences and their role in constructing and promoting the dictator's private persona both within Germany and abroad. Adolf Hitler's makeover from rabble-rouser to statesman coincided with a series of dramatic home renovations he undertook during the mid-1930s. This provocative book exposes the dictator's preoccupation with his private persona, which was shaped by the aesthetic and ideological management of his domestic architecture. Hitler's bachelor life stirred rumors, and the Nazi regime relied on the dictator's three dwellings—the Old Chancellery in Berlin, his apartment in Munich, and the Berghof, his mountain home on the Obersalzberg—to foster the myth of the Führer as a morally upstanding and refined man. Author Despina Stratigakos also reveals the previously untold story of Hitler's interior designer, Gerdy Troost, through newly discovered archival sources. At the height of the Third Reich, media outlets around the world showcased Hitler's homes to audiences eager for behind-the-scenes stories. After the war, fascination with Hitler's domestic life continued as soldiers and journalists searched his dwellings for insights into his psychology. The book's rich illustrations, many previously unpublished, offer readers a rare glimpse into the decisions involved in the making of Hitler's homes and into the sheer power of the propaganda that influenced how the world saw him.

"Inarguably the powder-keg title of the year."—Mitchell Owen, *Architectural Digest* "A fascinating read, which reminds us that in Nazi Germany the architectural and the political can never be disentangled. Like his own confected image, Hitler's buildings cannot be divorced from their odious political hinterland."—Roger Moorhouse, *Times*

*A Hole in Texas* Herman Wouk 2004-04-13 With this rollicking novel hailed equally for its satiric bite, its lightly borne scientific savvy, and its tender compassion for foible-prone humanity, one of America's preeminent storytellers returns to fiction. Guy Carpenter is a regular guy, a family man, an obscure NASA scientist, when he is jolted out of his quiet life and summoned to the corridors of power in Washington, D.C. Through a turn of events as unlikely as it is inevitable, Guy finds himself compromised by scandal and romance, hounded by Hollywood, and agonizingly alone at the white-hot center of a firestorm ignited as three potent forces of American culture -- politics, big science, and the media -- spectacularly collide.

*Marjorie Morningstar* Herman Wouk 2013-01-15 Now hailed as a "proto-feminist classic" (*Vulture*), Pulitzer Prize winner Herman Wouk's powerful coming-of-age novel about an ambitious young woman pursuing her artistic dreams in New York City has been a perennial favorite since it was first a bestseller in the 1950s. A starry-eyed young beauty, Marjorie Morgenstern is nineteen years old when she

leaves home to accept the job of her dreams--working in a summer-stock company for Noel Airman, its talented and intensely charismatic director. *Middlesex* Jeffrey Eugenides 2011-07-18 Spanning eight decades and chronicling the wild ride of a Greek-American family through the vicissitudes of the twentieth century, Jeffrey Eugenides' witty, exuberant novel on one level tells a traditional story about three generations of a fantastic, absurd, lovable immigrant family -- blessed and cursed with generous doses of tragedy and high comedy. But there's a provocative twist. Cal, the narrator -- also Callie -- is a hermaphrodite. And the explanation for this takes us spooling back in time, through a breathtaking review of the twentieth century, to 1922, when the Turks sacked Smyrna and Callie's grandparents fled for their lives. Back to a tiny village in Asia Minor where two lovers, and one rare genetic mutation, set our narrator's life in motion.

*Middlesex* is a grand, utterly original fable of crossed bloodlines, the intricacies of gender, and the deep, untidy promptings of desire. It's a brilliant exploration of divided people, divided families, divided cities and nations -- the connected halves that make up ourselves and our world.

*Born in Blackness: Africa, Africans, and the Making of the Modern World, 1471 to the Second World War* Howard W. French 2021-10-12 Revealing the central yet intentionally obliterated role of Africa in the creation of modernity, *Born in Blackness* vitally reframes our understanding of world history. Traditional accounts of the making of the modern world afford a place of primacy to European history. Some credit the fifteenth-century Age of Discovery and the maritime connection it established between West and East; others the accidental unearthing of the "New World." Still others point to the development of the scientific method, or the spread of Judeo-Christian beliefs; and so on, ad infinitum. The history of Africa, by contrast, has long been relegated to the remote outskirts of our global story. What if, instead, we put Africa and Africans at the very center of our thinking about the origins of modernity? In a sweeping narrative spanning more than six centuries, Howard W. French does just that, for *Born in Blackness* vitally reframes the story of medieval and emerging Africa, demonstrating how the economic ascendancy of Europe, the anchoring of democracy in the West, and the fulfillment of so-called Enlightenment ideals all grew out of Europe's dehumanizing engagement with the "dark" continent. In fact, French reveals, the first impetus for the Age of Discovery was not—as we are so often told, even today—Europe's yearning for ties with Asia, but rather its centuries-old desire to forge a trade in gold with legendarily rich Black societies sequestered away in the heart of West Africa. Creating a historical narrative that begins with the commencement of commercial relations between Portugal and Africa in the fifteenth century and ends with the onset of World War II, *Born in Blackness* interweaves precise historical detail with poignant, personal reportage. In so doing, it dramatically retrieves the lives of major African historical figures, from the unimaginably rich medieval emperors who traded with the Near East and beyond, to the Kongo sovereigns who heroically battled seventeenth-century European powers, to the ex-slaves who liberated Haitians from bondage and profoundly altered the course of American history. While French cogently demonstrates the centrality of Africa to the rise of the modern world, *Born in Blackness* becomes, at the same time, a far more significant narrative, one that reveals a long-concealed history of trivialization and, more often, elision in depictions of African history throughout the last five hundred years. As French shows, the achievements of sovereign African nations and their now-far-flung peoples have time and again been etiolated and deliberately erased from modern history. As the West ascended, their stories—siloed and piecemeal—were swept into secluded corners, thus setting the stage for the hagiographic "rise of the West" theories that have endured to this day. "Capacious and compelling" (Laurent Dubois), *Born in Blackness* is epic history on the grand scale. In the lofty tradition of bold, revisionist narratives, it reframes the story of gold and tobacco, sugar and cotton—and of the greatest "commodity" of them all, the twelve million people who

were brought in chains from Africa to the "New World," whose reclaimed lives shed a harsh light on our present world.

The Last Cowboys: A Pioneer Family in the New West John Branch 2018-05-15 "A can't-put-it-down modern Western." —Kirk Siegler, NPR Longlisted for the PEN/ESPN Award for Literary Sports Writing The Last Cowboys is Pulitzer Prize-winning reporter John Branch's epic tale of one American family struggling to hold on to the fading vestiges of the Old West. For generations, the Wrights of southern Utah have raised cattle and world-champion saddle-bronc riders—many call them the most successful rodeo family in history. Now they find themselves fighting to save their land and livelihood as the West is transformed by urbanization, battered by drought, and rearranged by public-land disputes. Could rodeo, of all things, be the answer? Written with great lyricism and filled with vivid scenes of heartache and broken bones, The Last Cowboys is a powerful testament to the grit and integrity that fuel the American Dream.
