Registration and housing costs are kept low to enable entire research groups to attend, and in fact most senior people in the field gave their very first conference presentation at this symposium (to a very friendly audience). A wide range of topics is covered, from theory to experiment, from gas-phase to condensed-phase, from low resolution to ultra-high resolution, from the microwave to the ultraviolet, and from fundamental science to applications such as astronomy and atmospheric science. Each year's meeting also includes three "mini-symposia" on topics of special interest.

Jumpin' Jack Flash Keiron Pim 2017-01-26 'REVELATORY' - DAILY TELEGRAPH ***** 'FASCINATING' - OBSERVER 'ENGROSSING' - DAILY MAIL 'You'll worry at your hunger to keep on reading, but you won't be able to stop' - GUARDIAN, Book of the Year David Litvinoff was one of the great mythic characters of '60s London. Flitting between the worlds of music, art and crime, he exerted a hidden influence that helped create the Krays twins' legend, connected the Rolling Stones with London's dark side, shaped the plot of classic film Performance - and saw him immortalised in a portrait by Lucian Freud. Litvinoff's determination to live without trace means that his life has always eluded biographers, until now. Intent on unravelling the enigma of Litvinoff, Keiron Pim conducted 100 interviews over five years, speaking to Eric Clapton and Marianne Faithfull, James Fox and 'Mad' Frankie Fraser. The result is an extraordinary feat of research that traces a rogue's progress amongst aristocrats, gangsters and rock stars.

Chop Suey, USA Yong Chen 2014-11-04 American diners began to flock to Chinese restaurants more than a century ago, making Chinese food the first mass-consumed cuisine in the United States. By 1980, it had become the country's most popular ethnic cuisine. **Chop Suey, USA** offers the first comprehensive interpretation of the rise of Chinese food, revealing the forces that made it ubiquitous in the American gastronomic landscape and turned the country into an empire of consumption. Engineered by a politically disenfranchised, numerically small, and economically exploited group, Chinese food's tour de America is an epic story of global cultural encounter. It reflects not only changes in taste but also a growing appetite for a more leisurely lifestyle. Americans fell in love with Chinese food not because of its gastronomic excellence but because of its affordability and convenience, which is why they preferred the quick and simple dishes of China while shunning its haute cuisine. Epitomized by chop suey, American Chinese food was a forerunner of McDonald's, democratizing the once-exclusive dining-out experience for such groups as marginalized Anglos, African Americans, and Jews. The rise of Chinese food is also a classic American story of immigrant entrepreneurship and perseverance. Barred from many occupations, Chinese Americans successfully turned Chinese food from a despised cuisine into a dominant force in the restaurant market, creating a critical lifeline for their community. Chinese American restaurant workers developed the concept of the open kitchen and popularized the practice of home delivery. They streamlined certain Chinese dishes, such as chop suey and egg foo young, turning them into nationally recognized brand names.
